SYSTEMA NERVOSUM CENTRALE

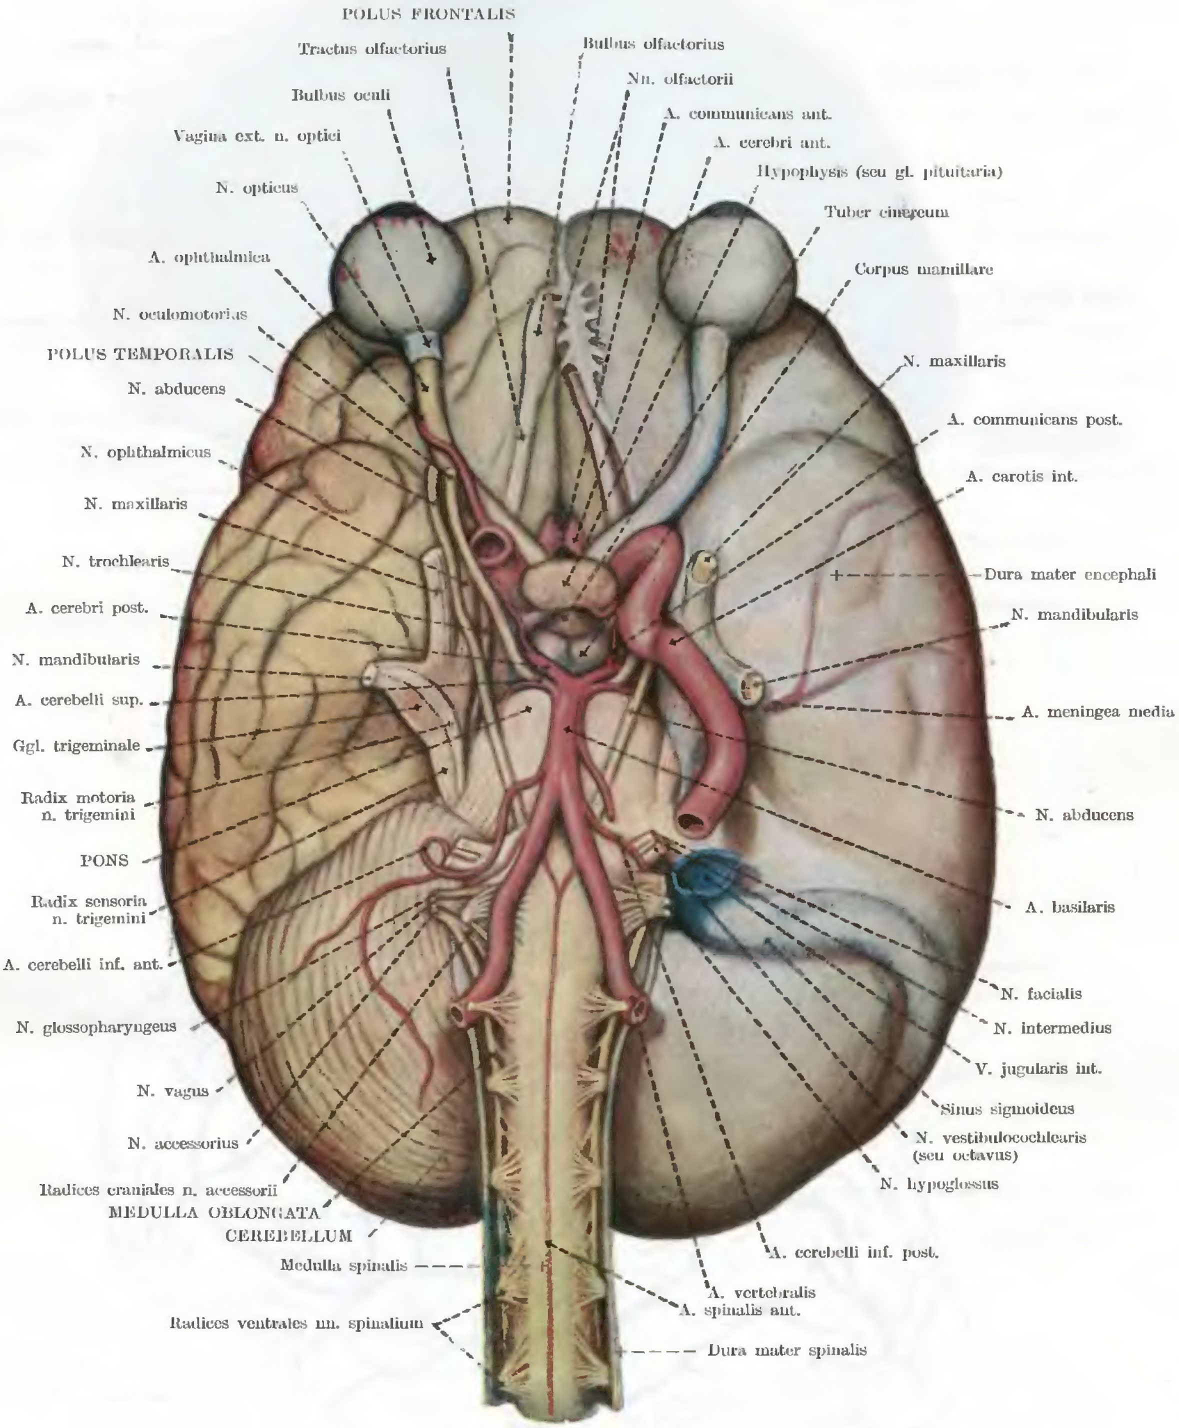

Fig. 1. BASIS CEREBRI
(arteriae baseos cerebri et nervi craniales)

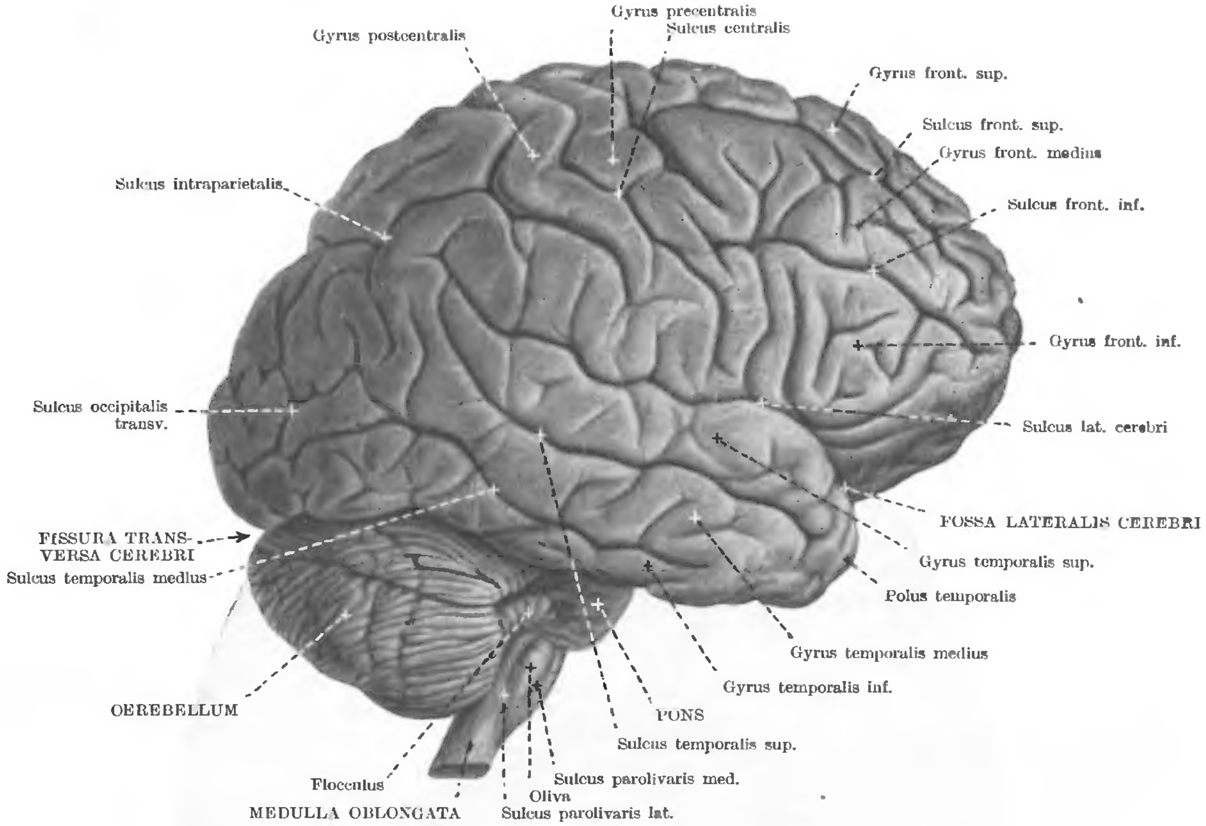

Fig. 2. ENCEPHALON I.
(aspectus lateralis dext.)

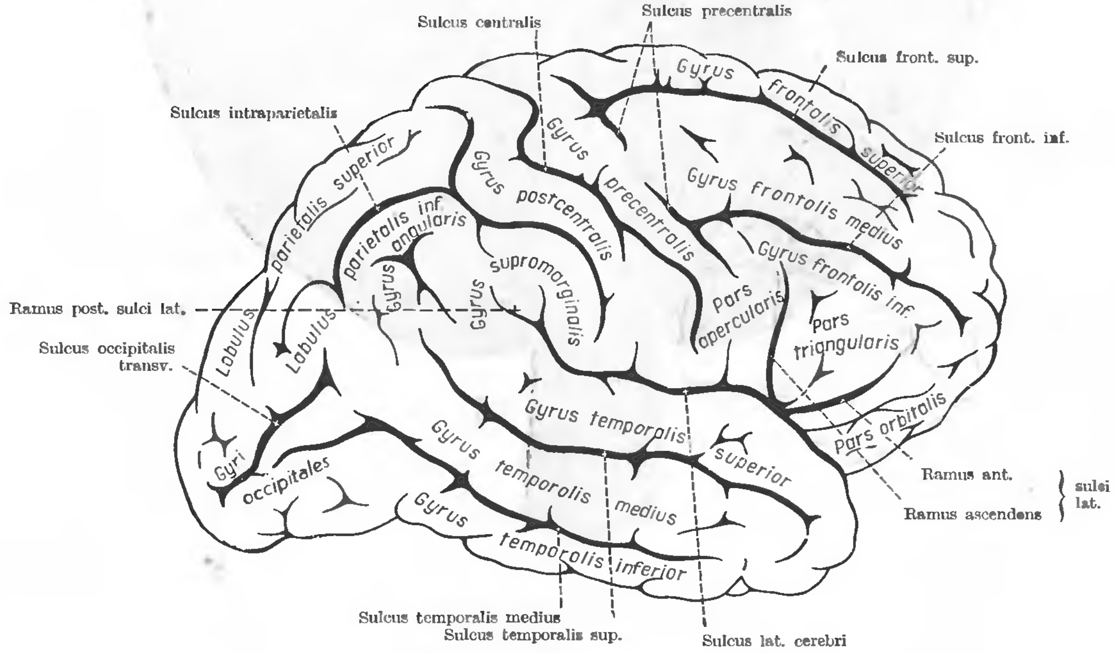

Fig. 3. SULCI ET GYRI CEREBRI I.
(facies supero-lateralis hemispherii, aspectus dext.)

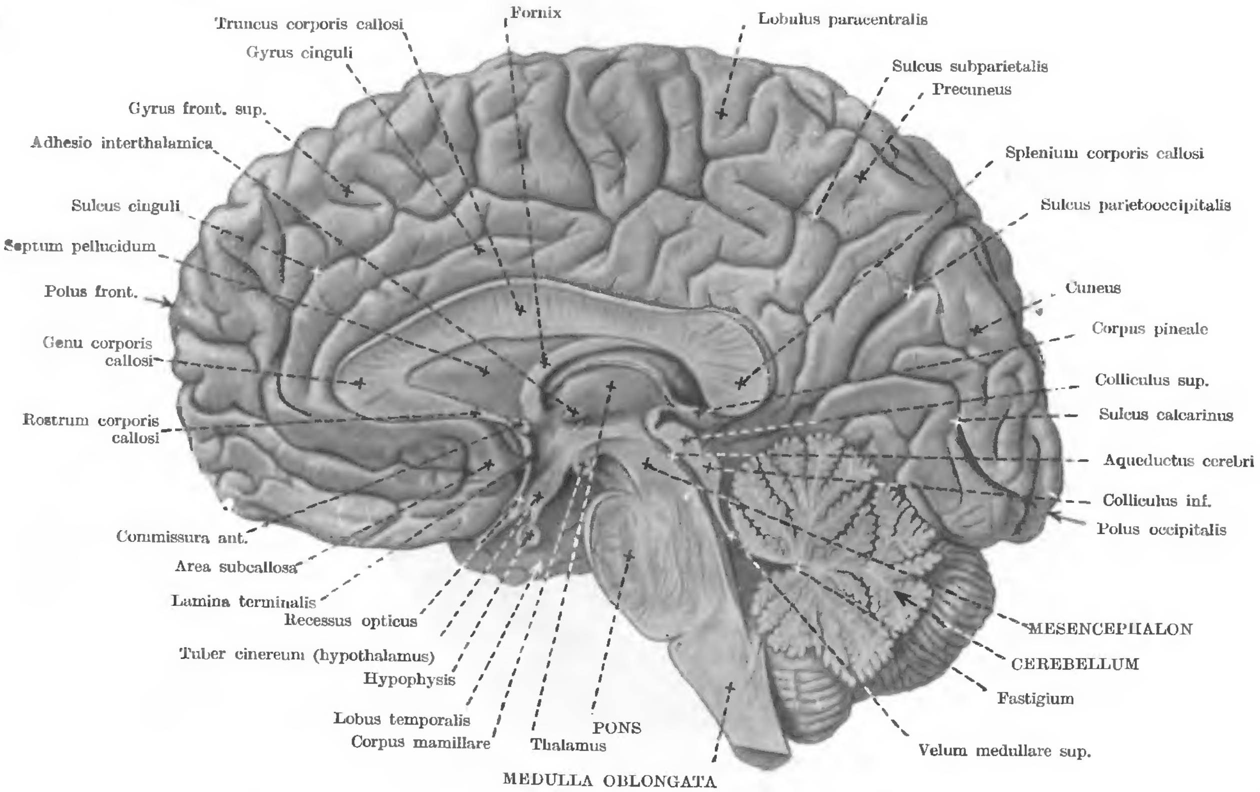

Fig. 4. ENCEPHALON II.
(sectio sagittalis, aspectus medialis, l. dext.)

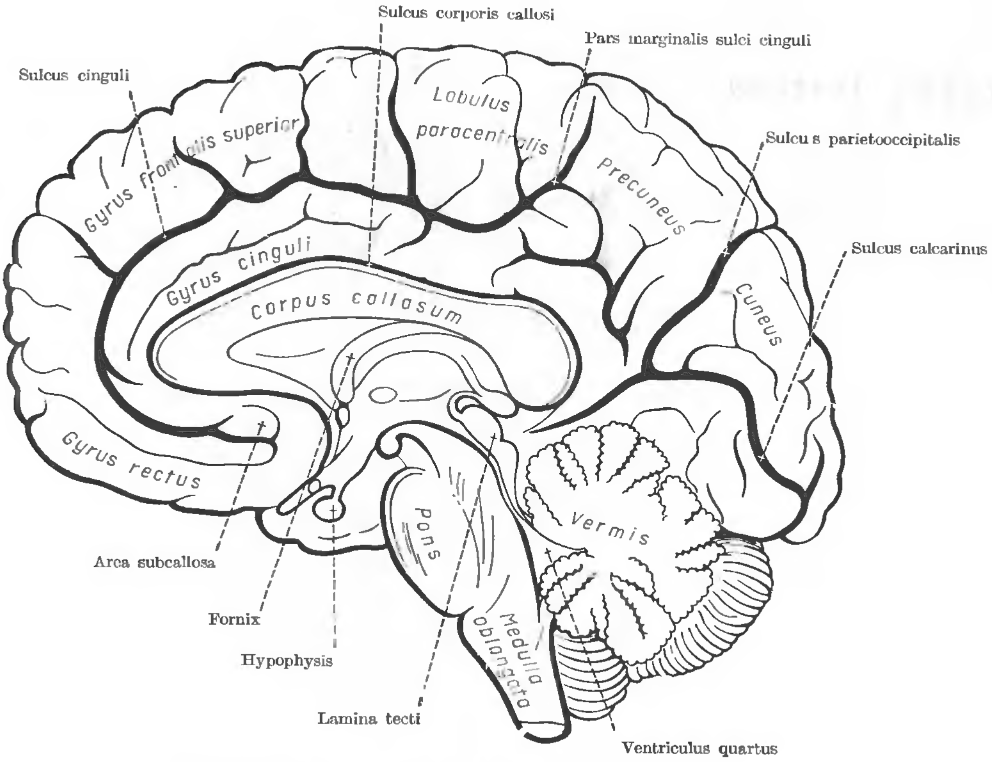

Fig. 5. SULCI ET GYRI CEREBRI II.
(facies medialis hemispherii, sectio sagittalis encephali)

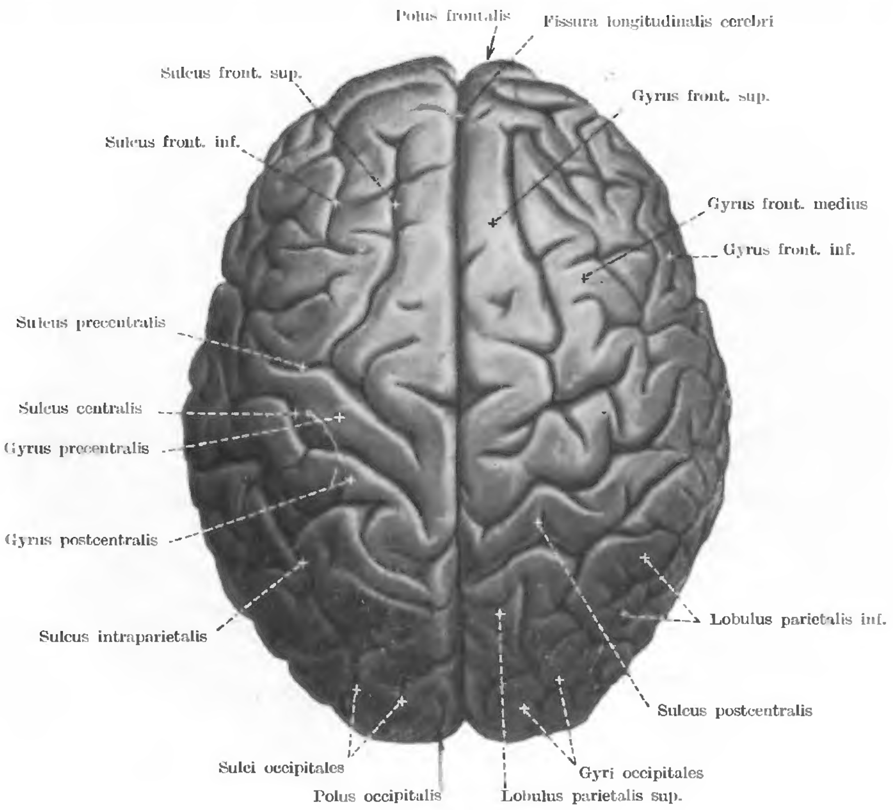

Fig. 6. ENCEPHALON III.
(aspectus superior)

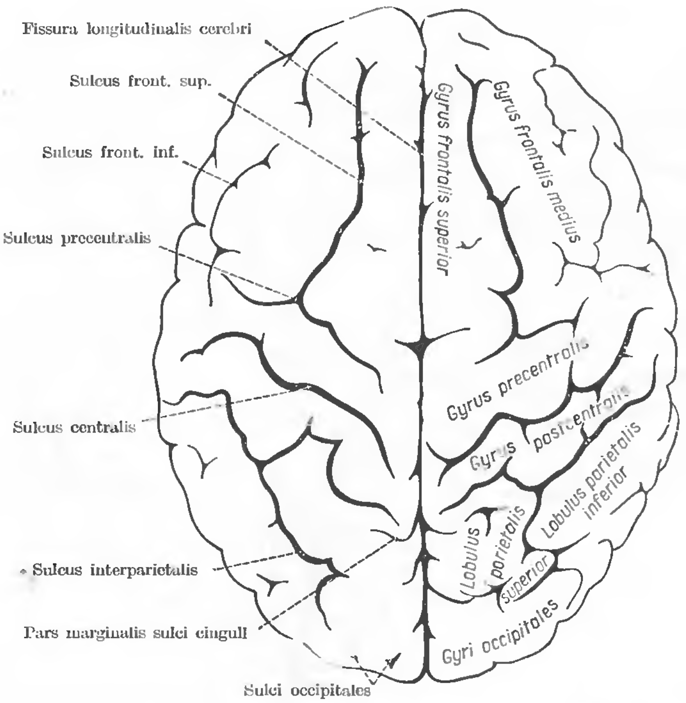

Fig. 7. SULCI ET GYRI CEREBRI III.
(facies supero-laterales hemispheriorum, aspectus superior)

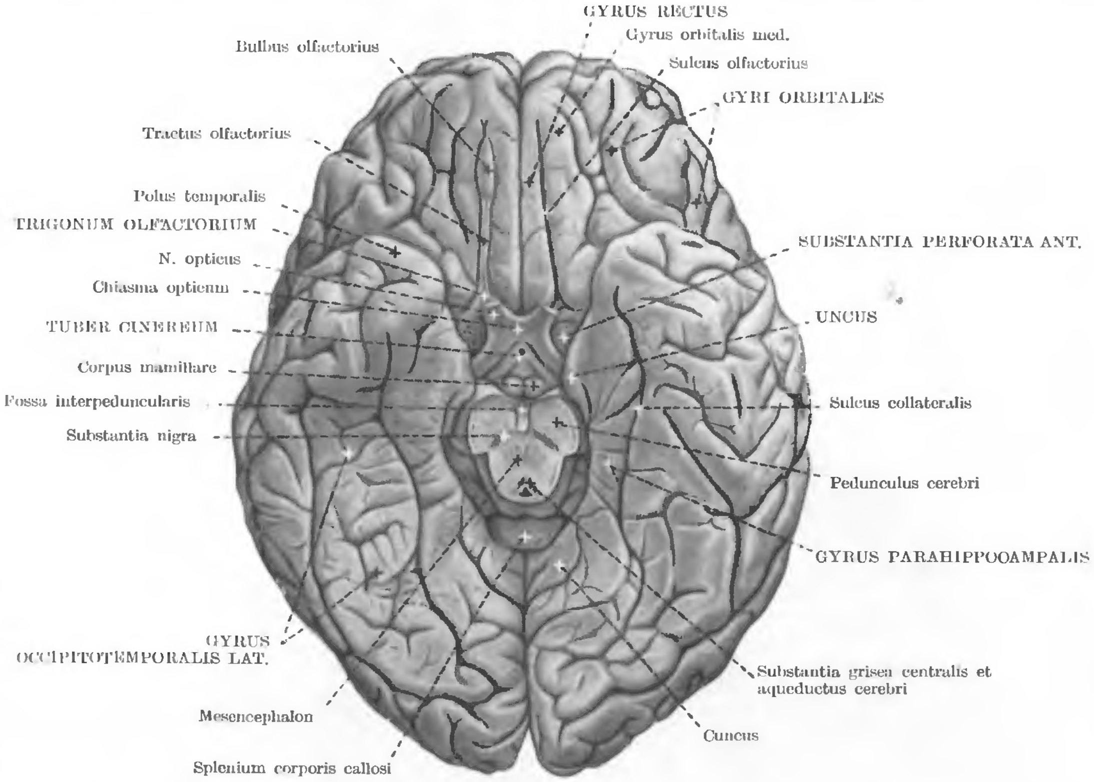

Fig. 8. FACIES INFERIOR CEREBRI
(aspectus inferior)

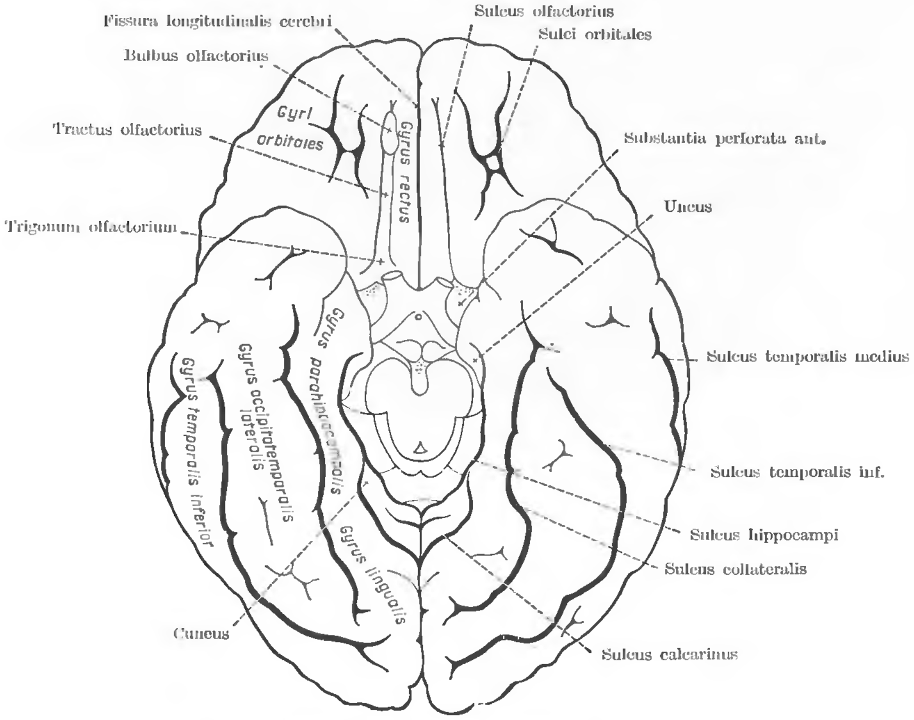

Fig. 9. SULCI ET GYRI CEREBRI IV.
(facies inferiores hemispheriorum)

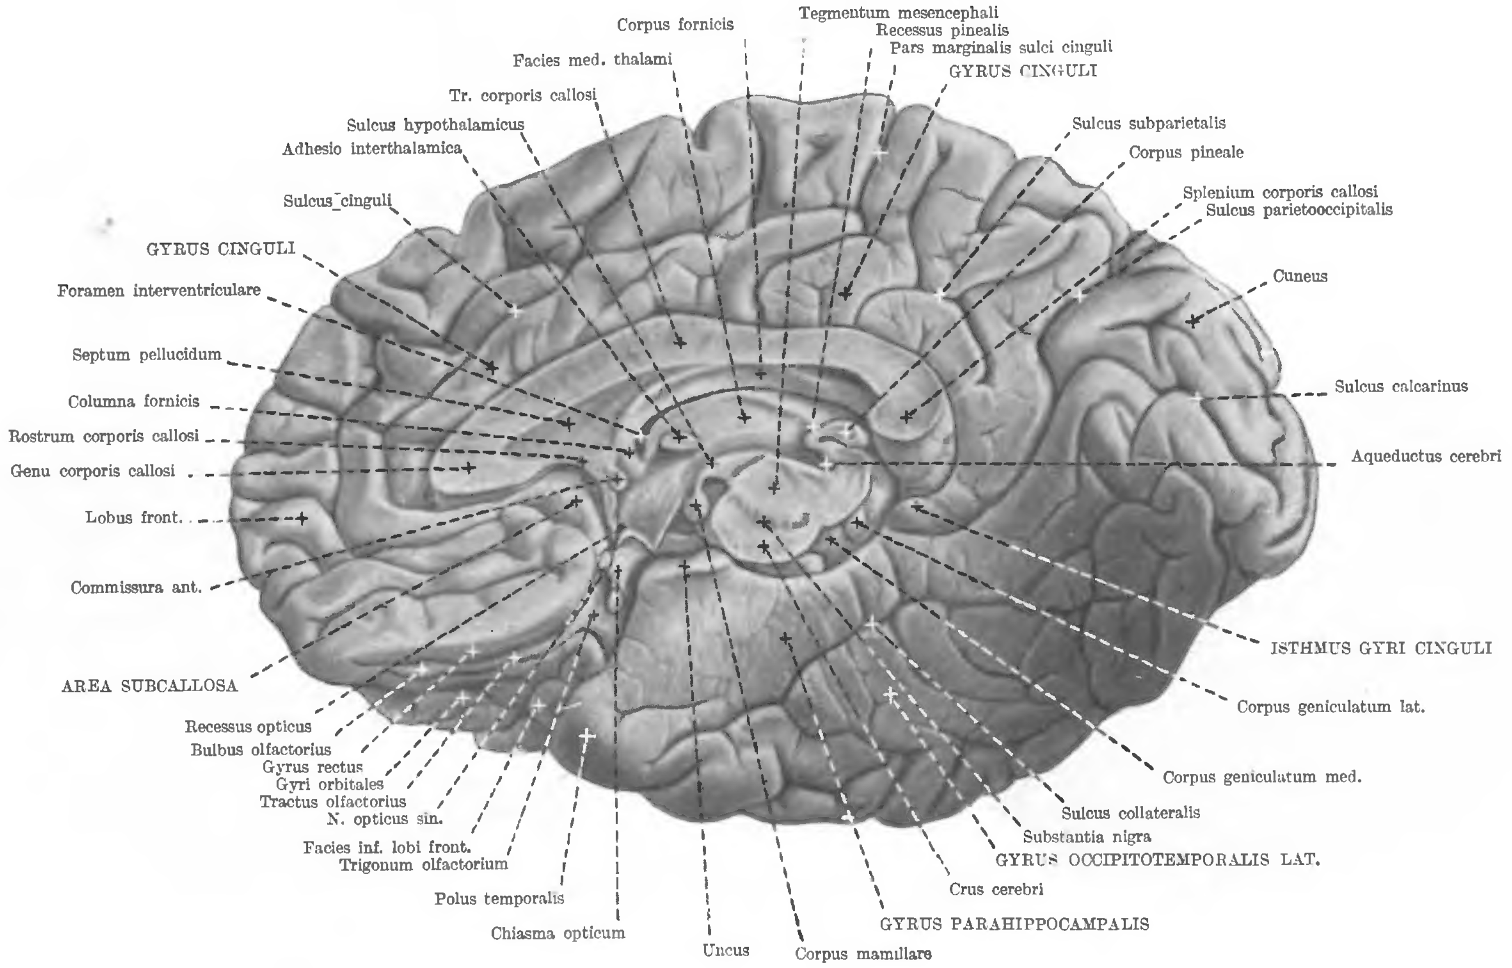

Fig. 10. FACIES MEDIALIS ET INFERIOR HEMISPHERII
(telencephalon et diencephalon, aspectus infero-medialis hemispherii dextri)

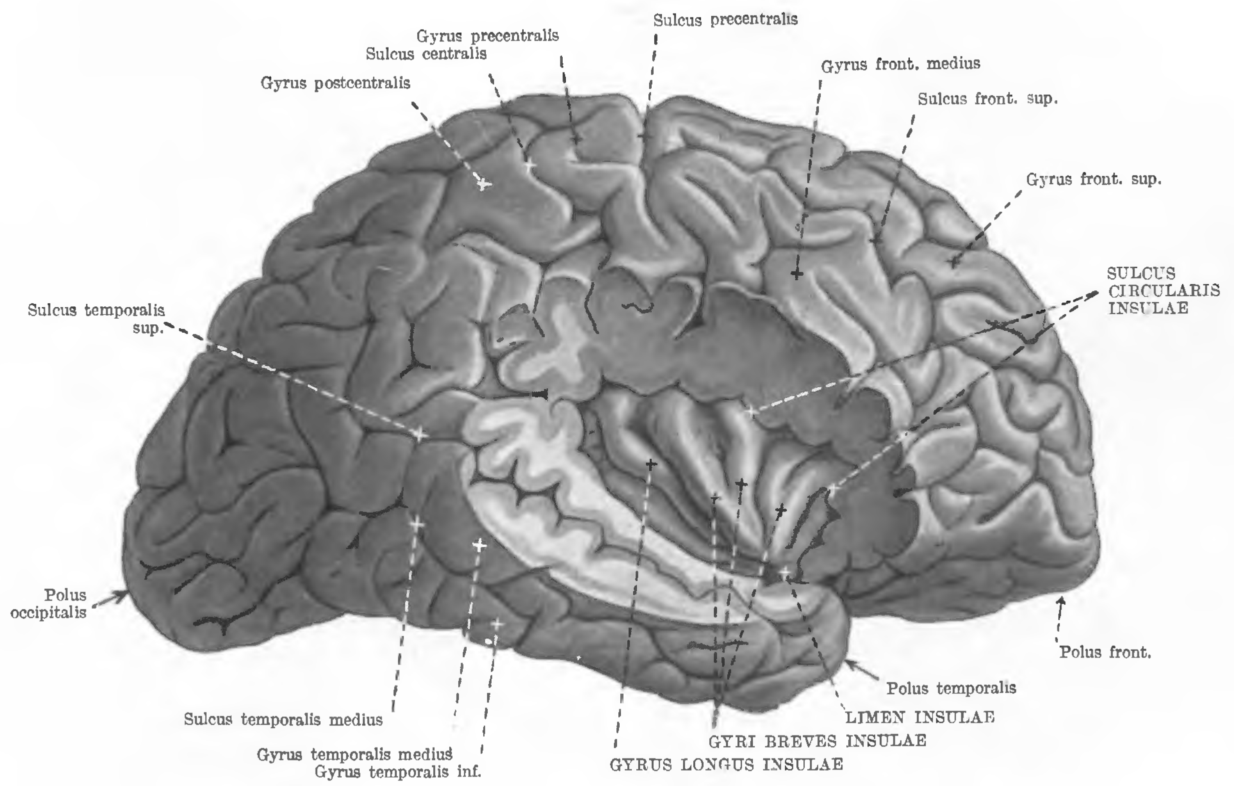

Fig. 11. INSULA
(opercula frontoparietale et temporale ablata)

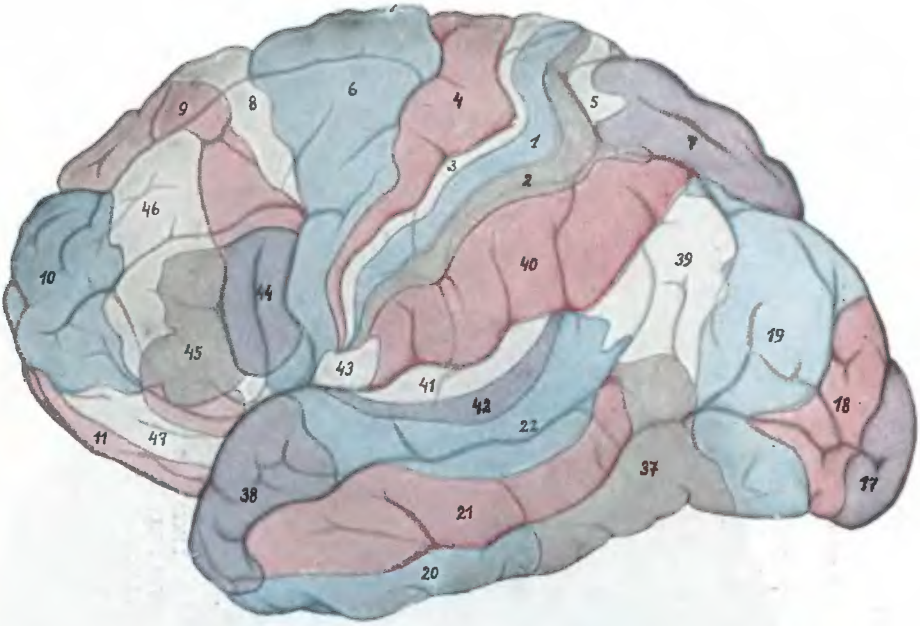

Fig. 12. AREAE CORTICIS CEREBRI I.
(areae cytoarchitectonicae secundum Brodmann, facies supero-lateralis cerebri, hemispherium sin.)

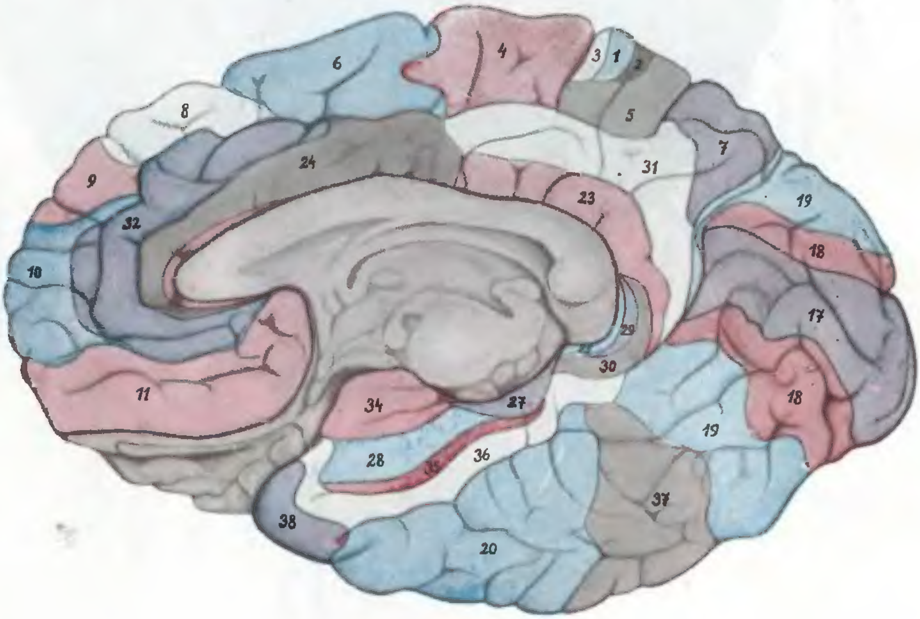

Fig. 13. AREAE CORTICIS CEREBRI II.
(areae cytoarchitectonicae secundum Brodmann, facies medialis et inferior cerebri, hemispherium dext.)

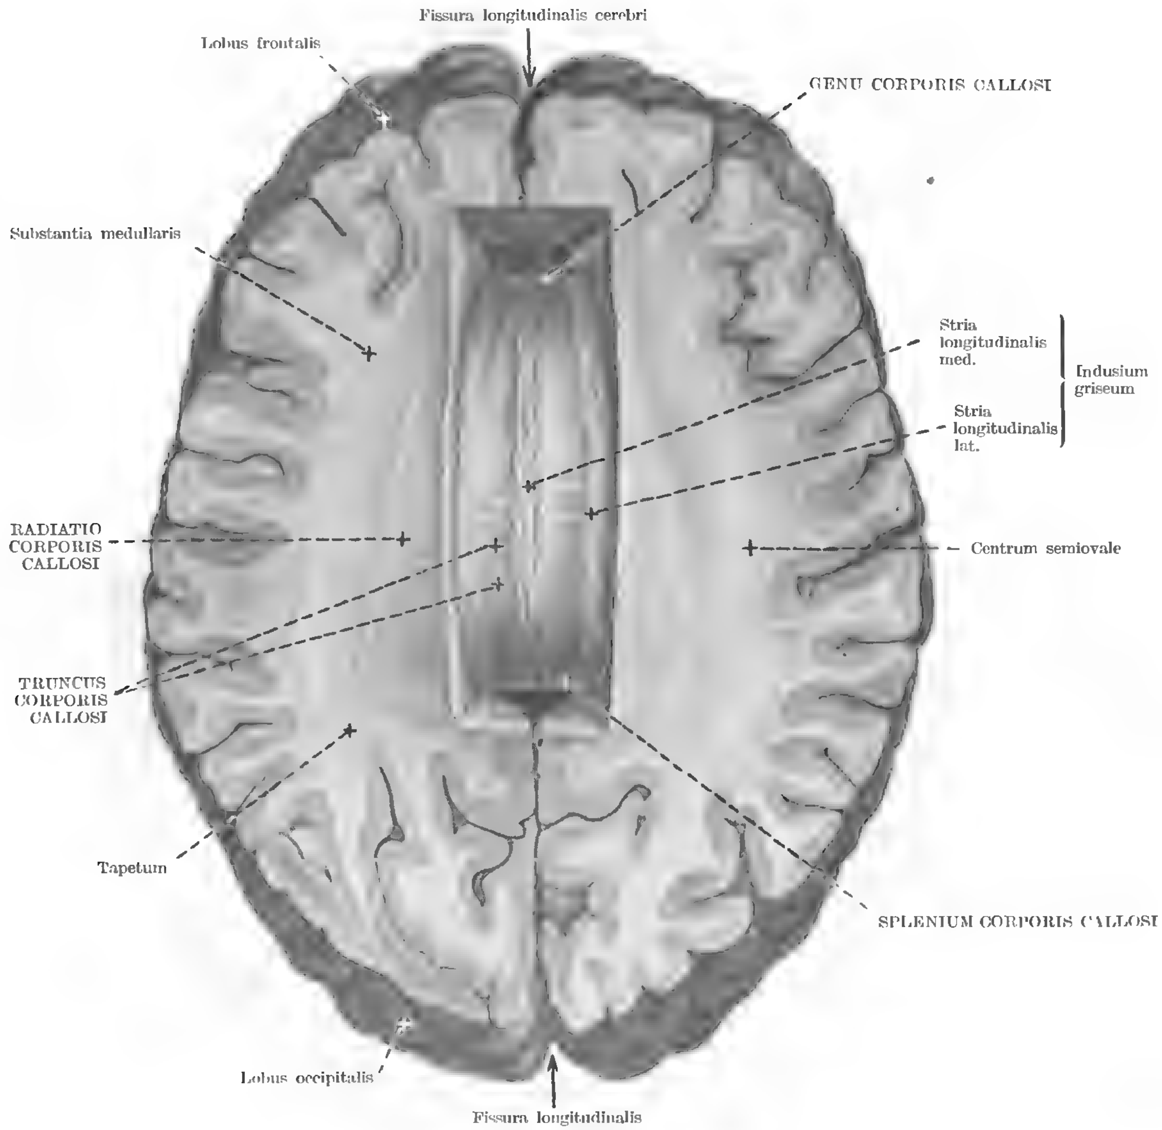

Fig. 14. CORPUS CALLOSUM
(sectio horizontalis cerebri, aspectus superior)

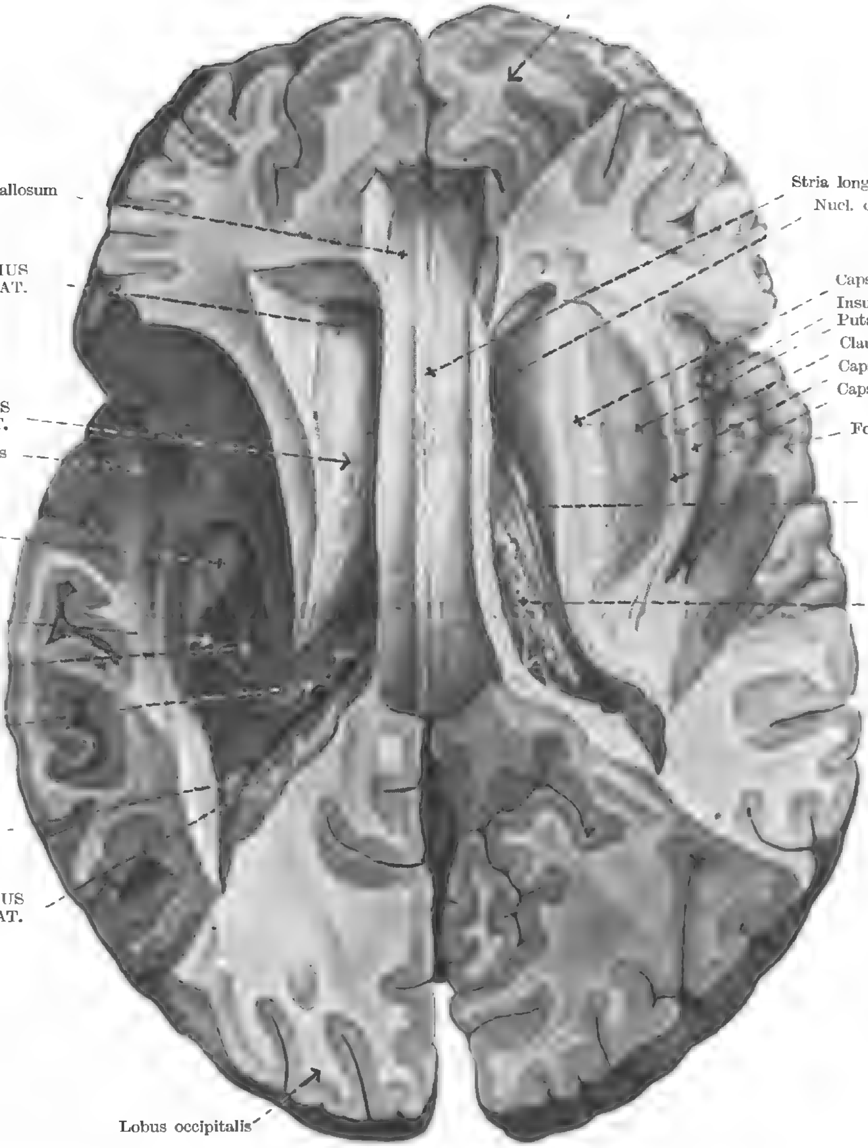

Fig. 15. VENTRICULI LATERALES I.
(aspectus superior)

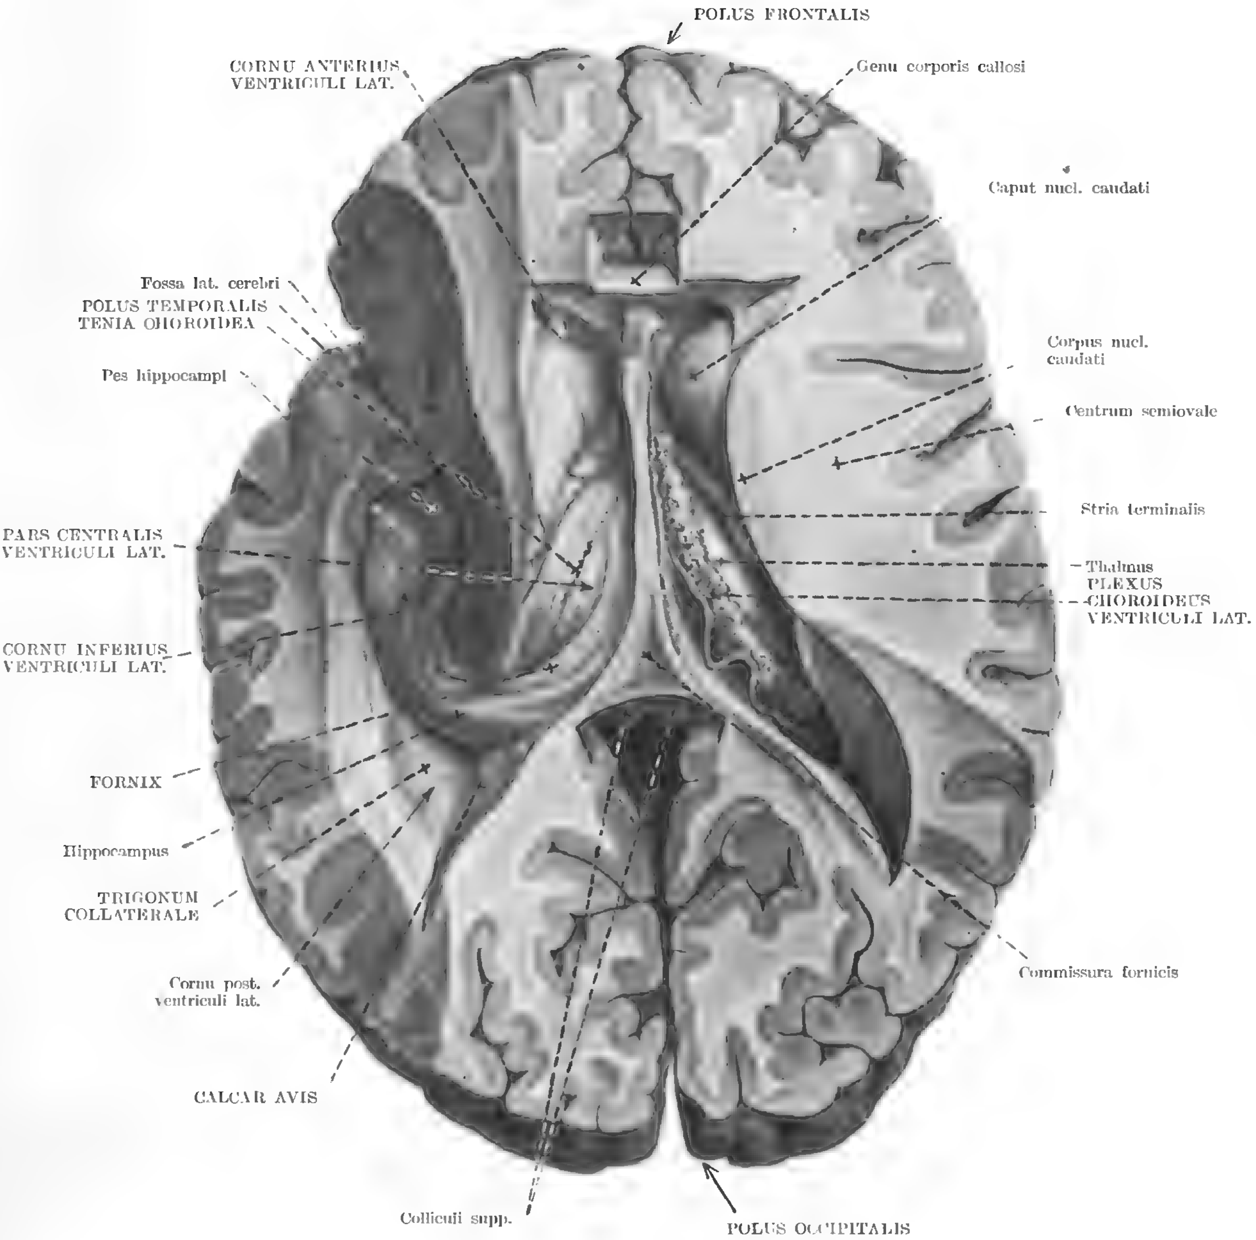

Fig. 16. VENTRICULI LATERALES II.
(aspectus superior, corpus callosum ablatum)

Пензенская областная

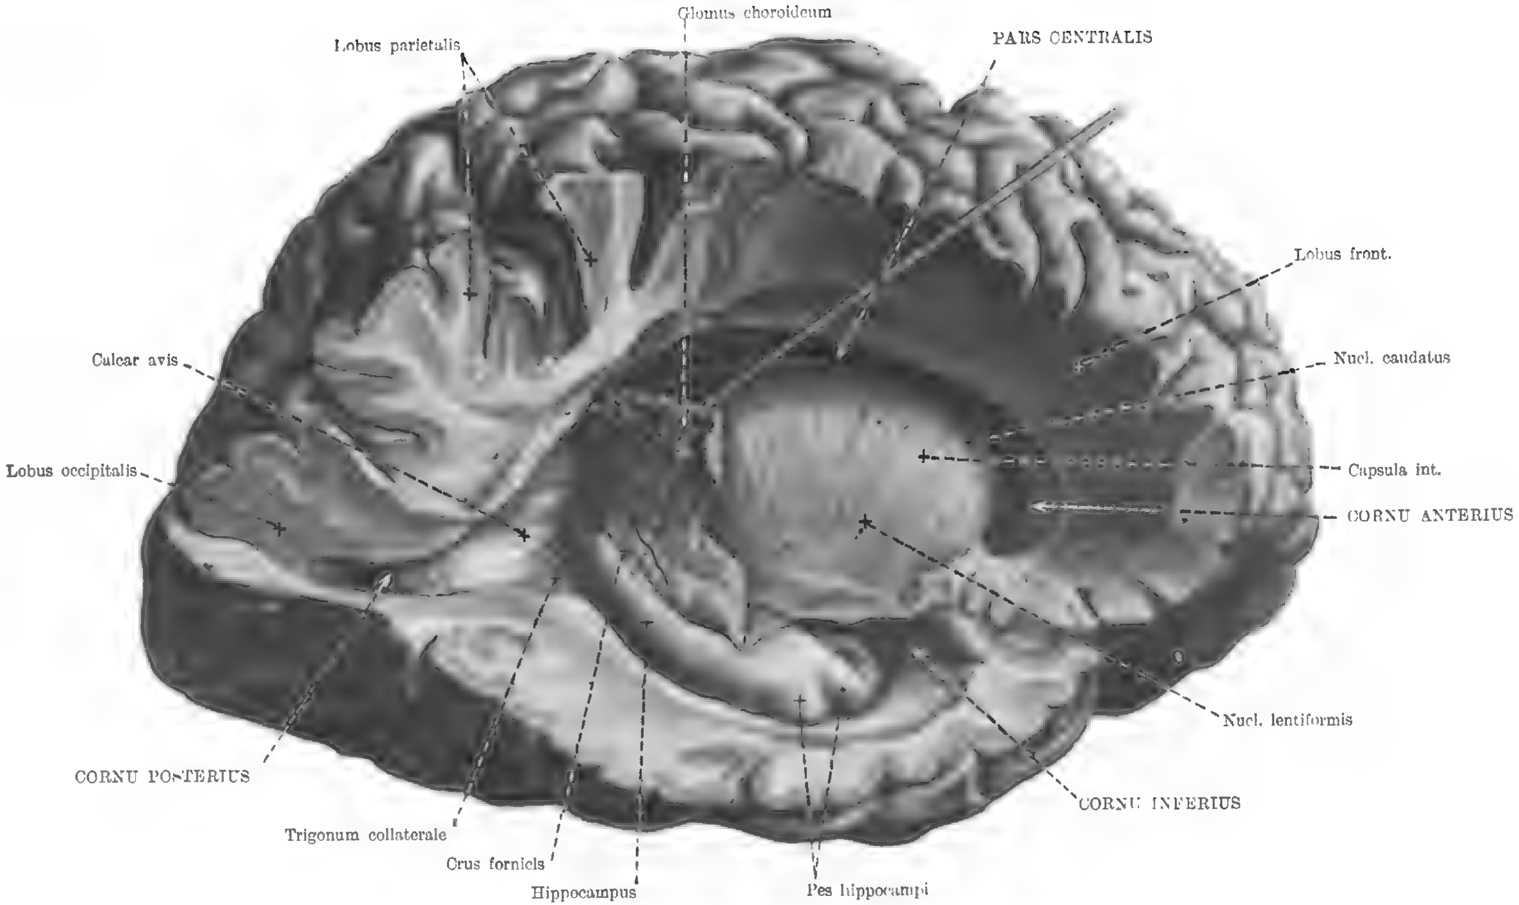

Fig. 17. VENTRICULUS LATERALIS III.
(aspectus lateralis, l. dext.)

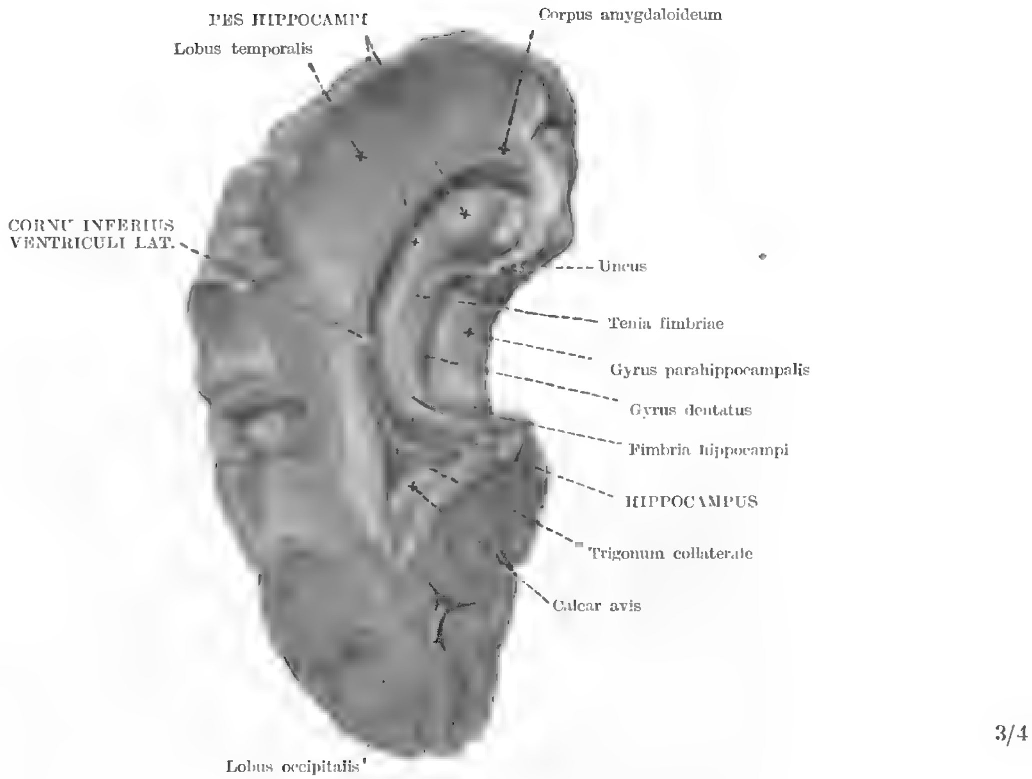

Fig. 18. CORNU INFERIUS VENTRICULI LATERALIS I.
(aspectus superior, l. sin.)

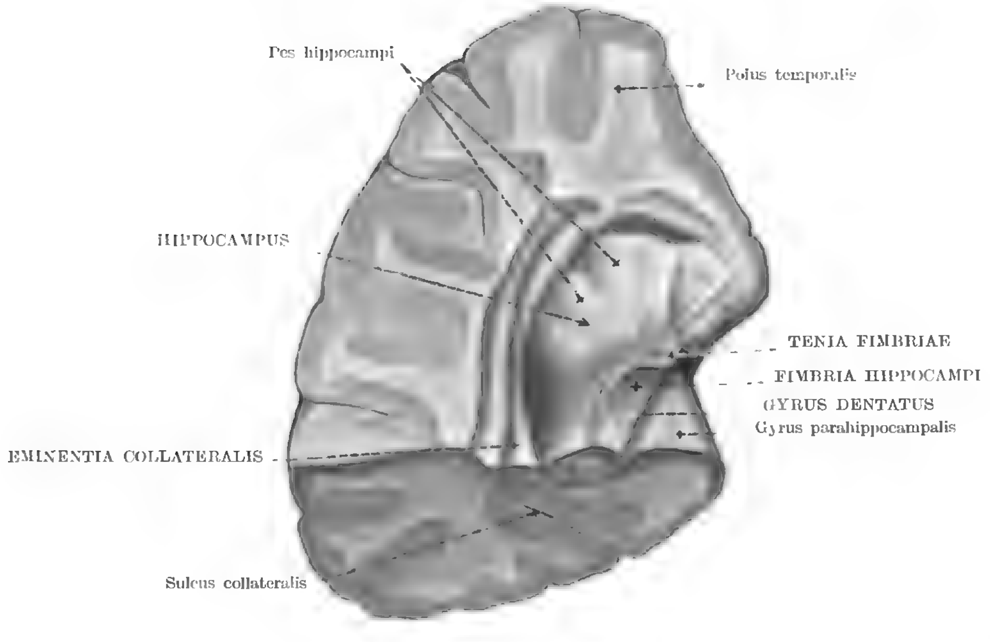

Fig. 19. CORNU INFERIUS VENTRICULI LATERALIS II.
(apex cornus inferioris)

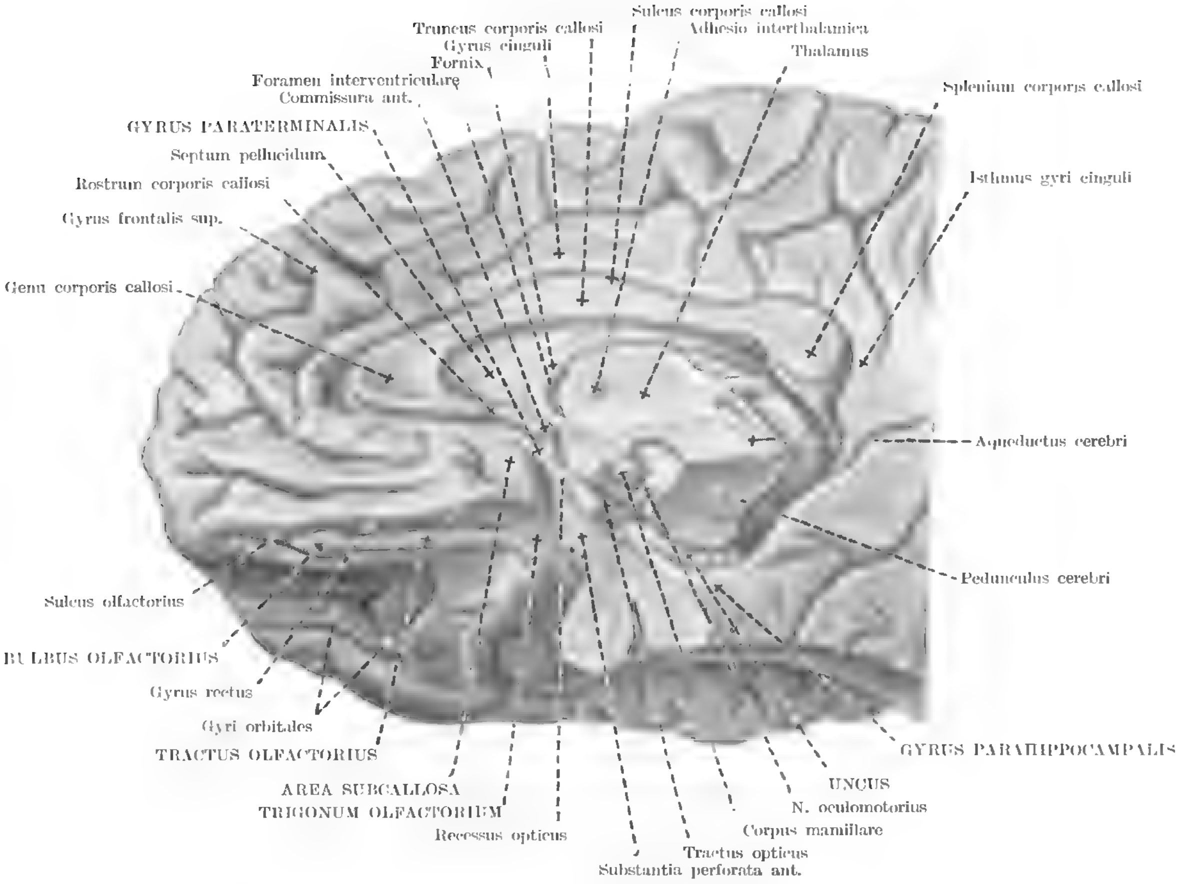

Fig. 20. RHINENCEPHALON
(aspectus infero-medialis, l. dext.)

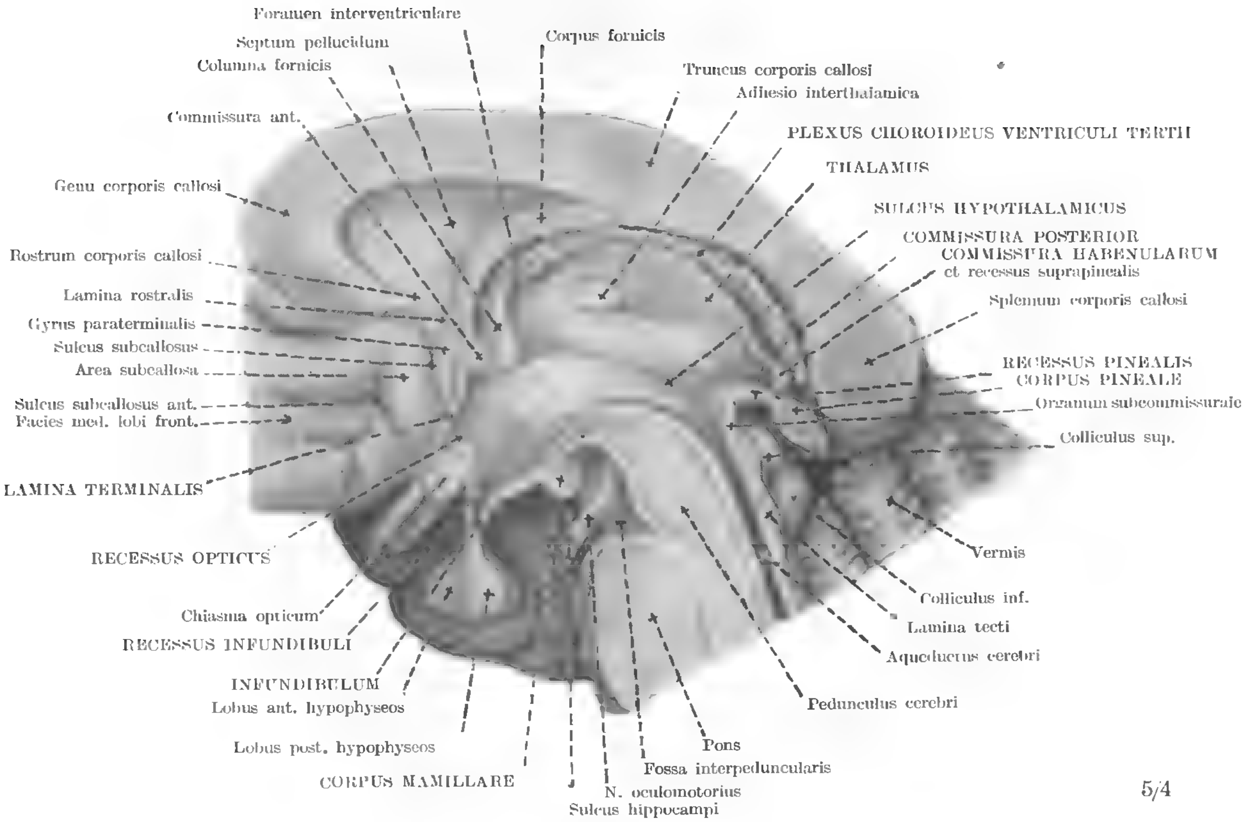

Fig. 21. DIENCEPHALON
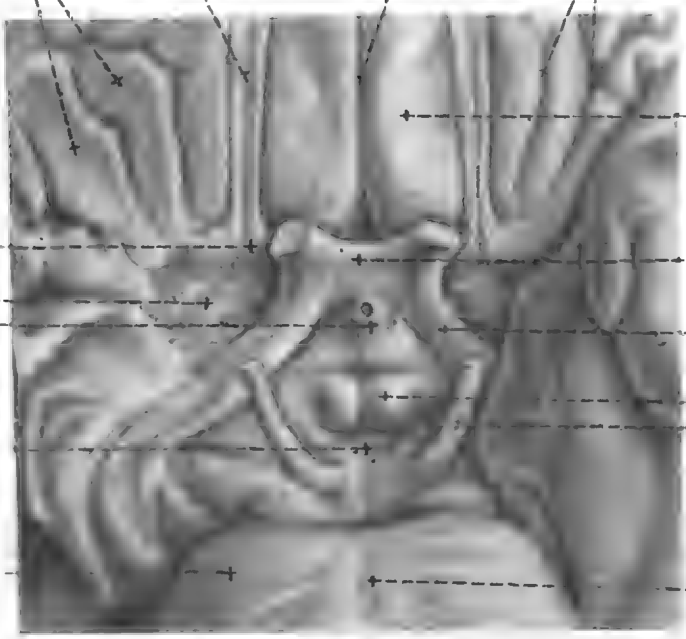
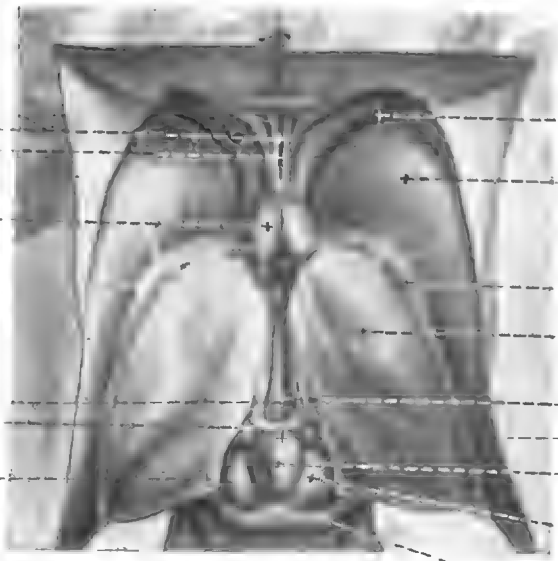
(ventriculus tertius, thalamus et hypothalamus, sectio sagittalis, l. dext.)



3/2

Fig. 22. CENTRUM BASEOS ENCEPHALI
(diencephalon, hypothalamus, aspectus inferior)



1/1

Fig. 23. VENTRICULUS TERTIUS ET THALAMUS
(thalamencephalon, epithalamus, aspectus superior)

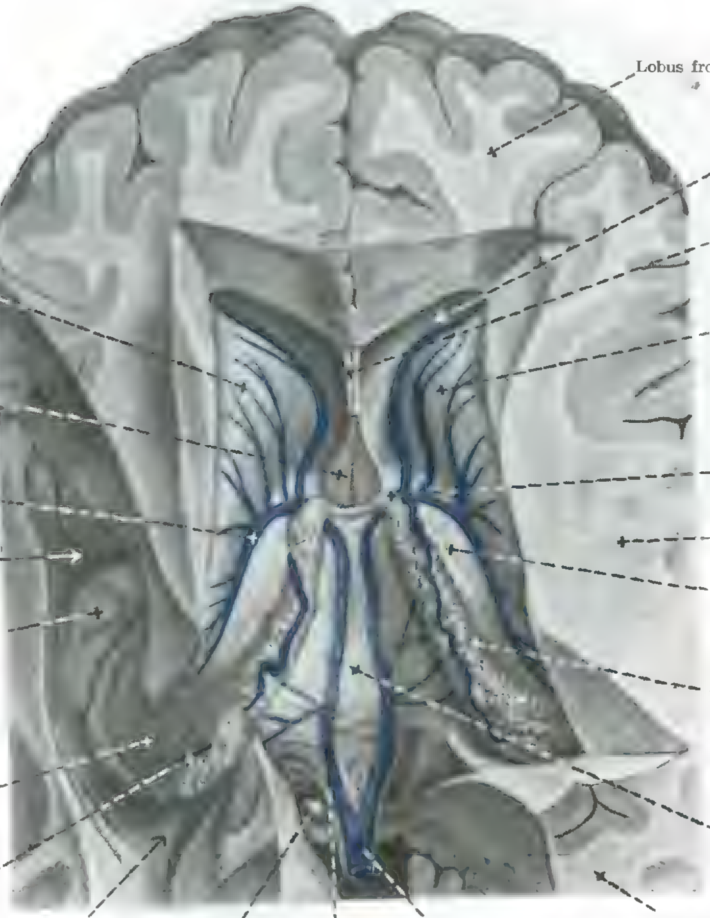


Fig. 24. TELA CHOROIDEA VENTRICULI TERTII
(venae internae cerebri, aspectus superior)

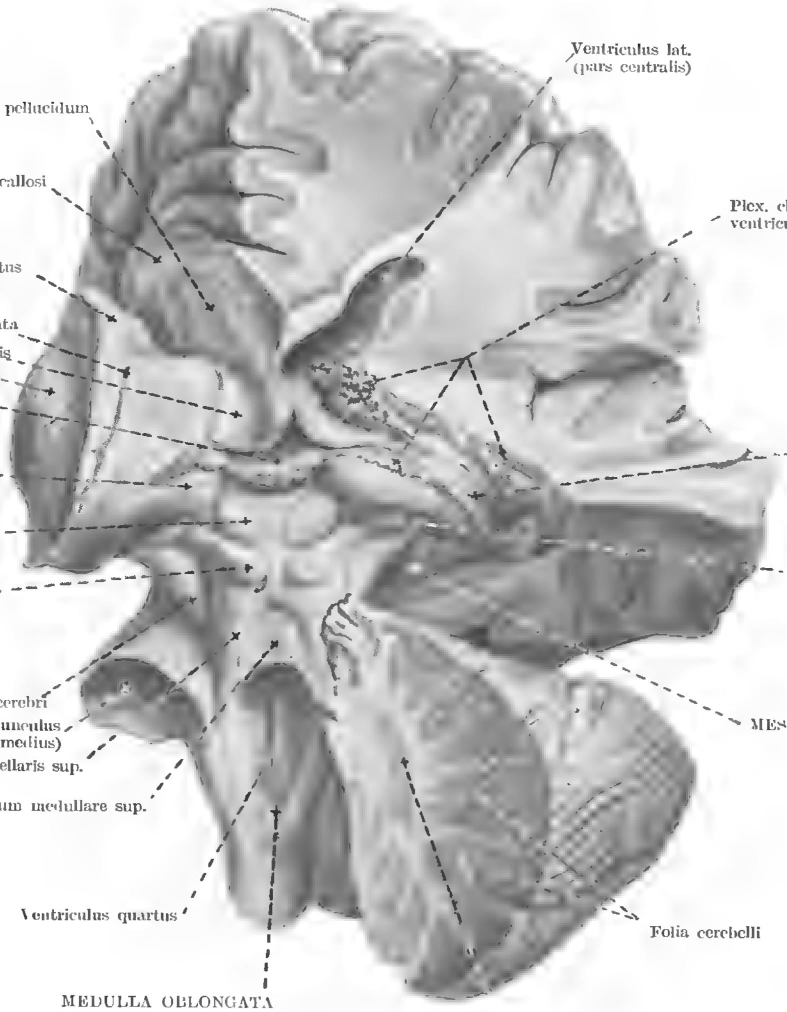

Fig. 25. TRUNCUS CEREBRI I.
(aspectus posterior)

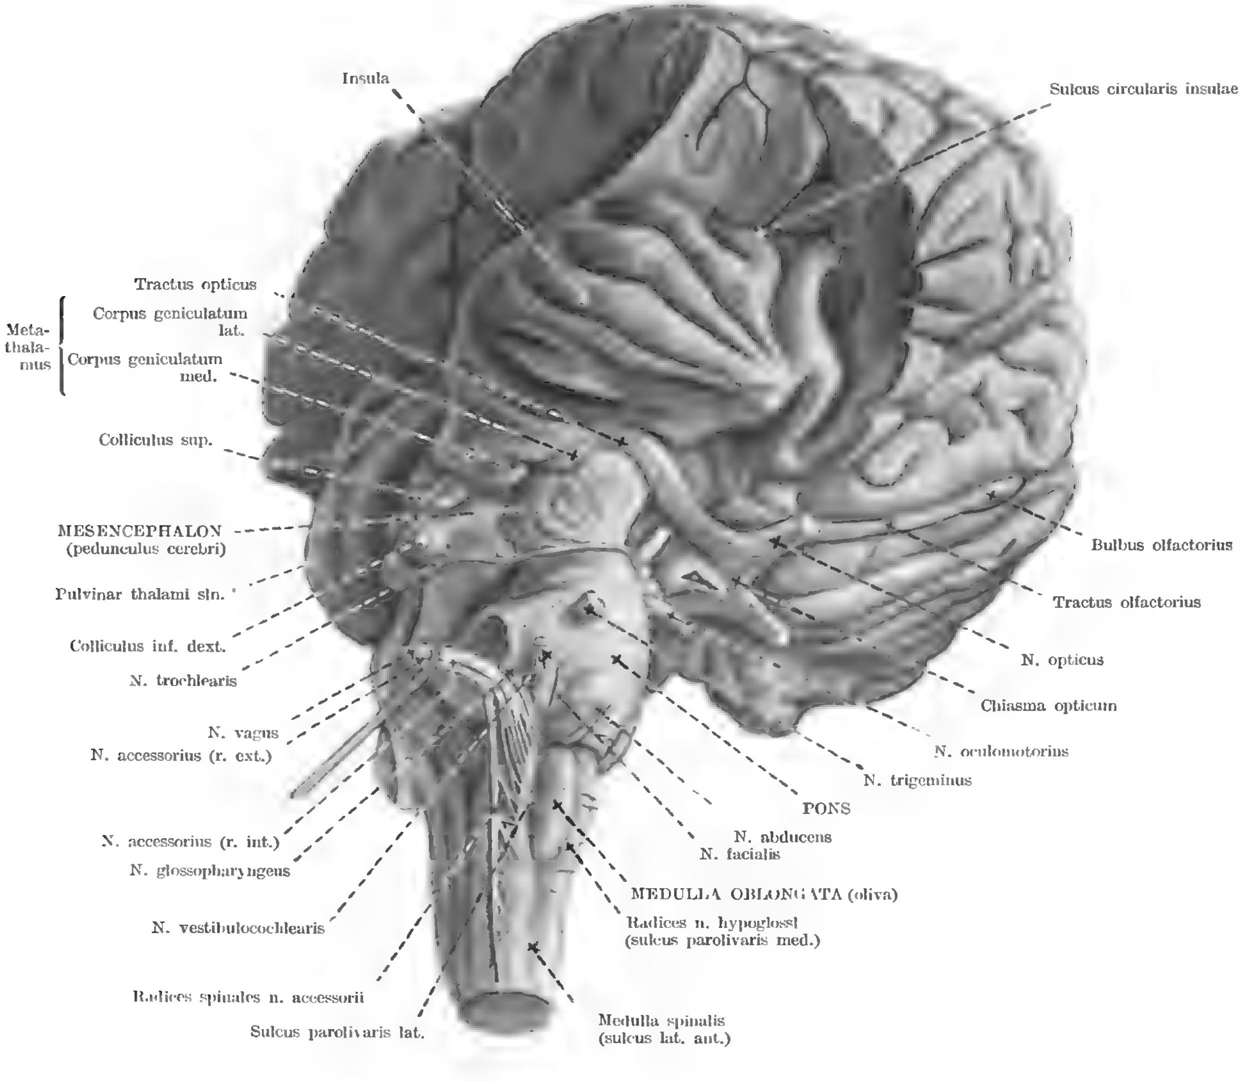

Fig. 26. TRUNCUS CEREBRI II.
(aspectus infero-lateralis dexter)

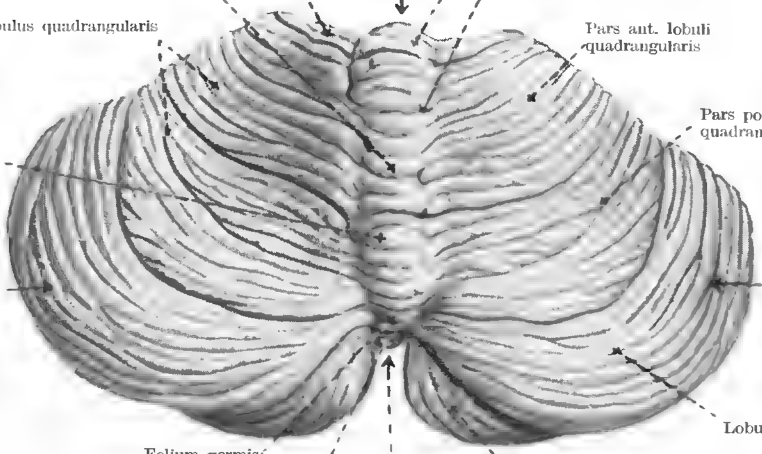

Fig. 27. CEREBELLUM I.
(vermis et facies superiores hemispheriorum, aspectus superior)

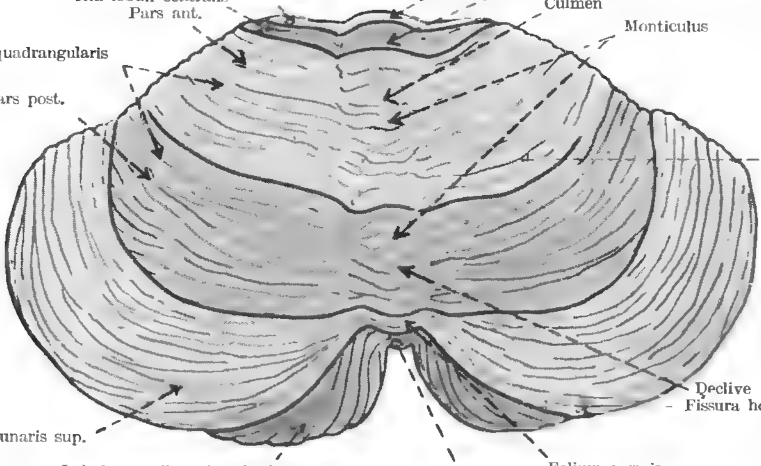

Fig. 28. CEREBELLUM II.
(vermis et lobuli, aspectus superior)

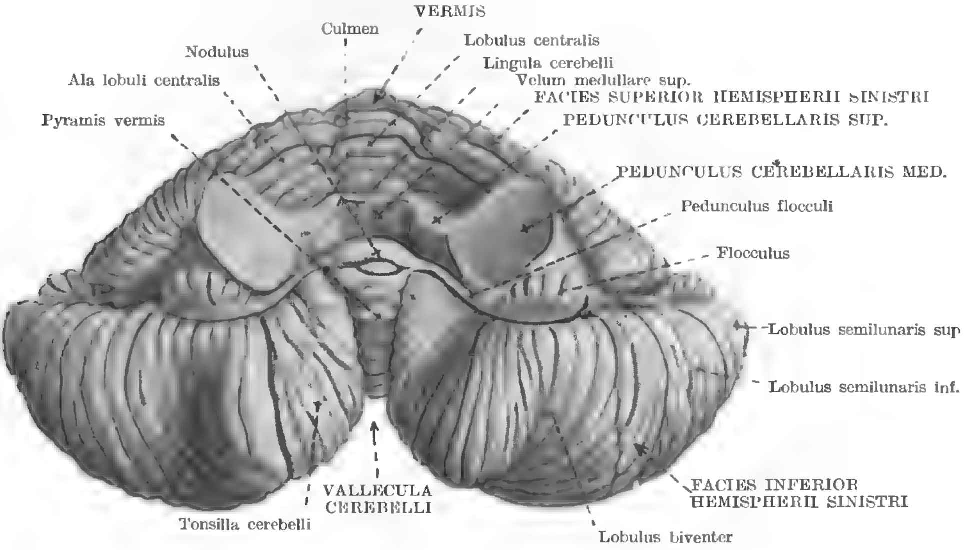

Fig. 29. CEREBELLUM III.
(vermis et hemispherii, aspectus anterior)

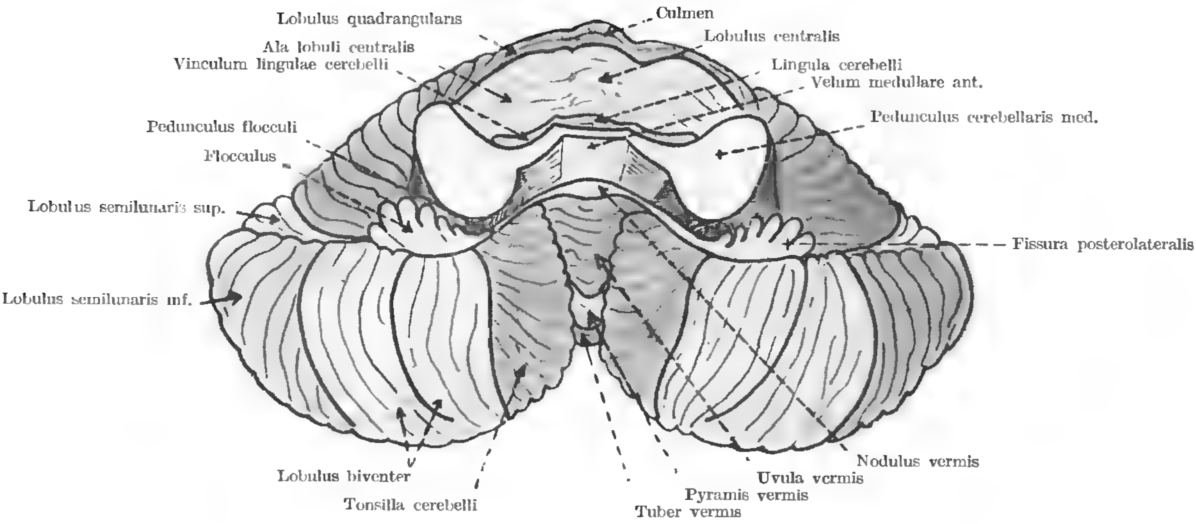

Fig. 30. CEREBELLUM IV.
(vermis et lobuli, aspectus anterior)

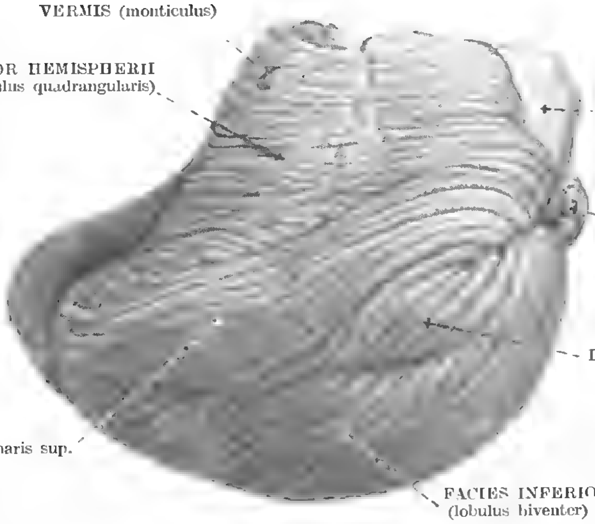

Fig. 31. CEREBELLUM V.
(aspectus dexter)

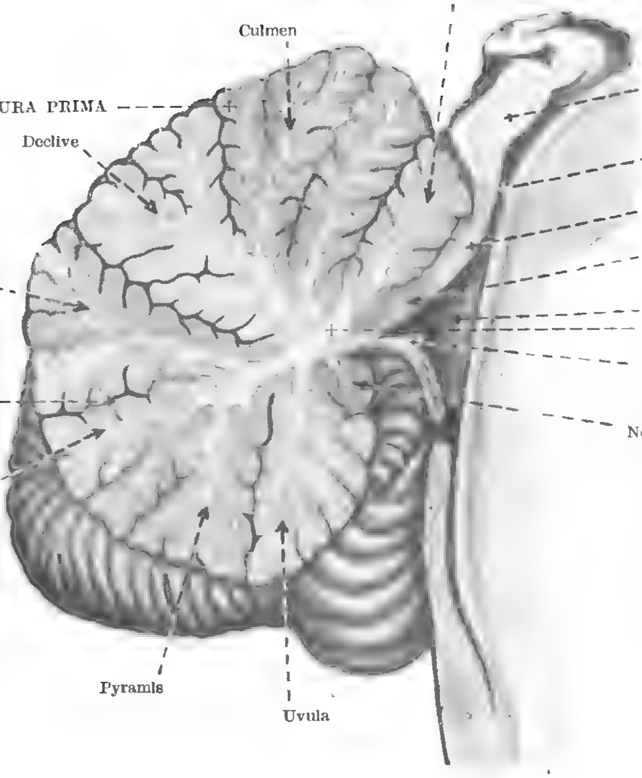

Fig. 32. CEREBELLUM VI.
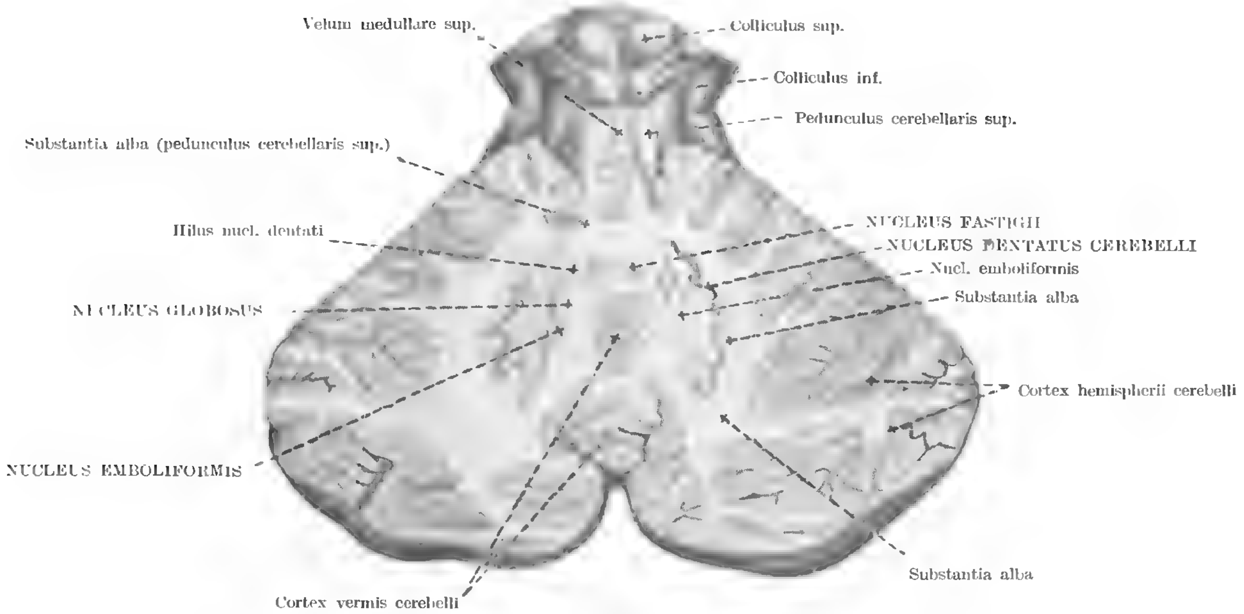
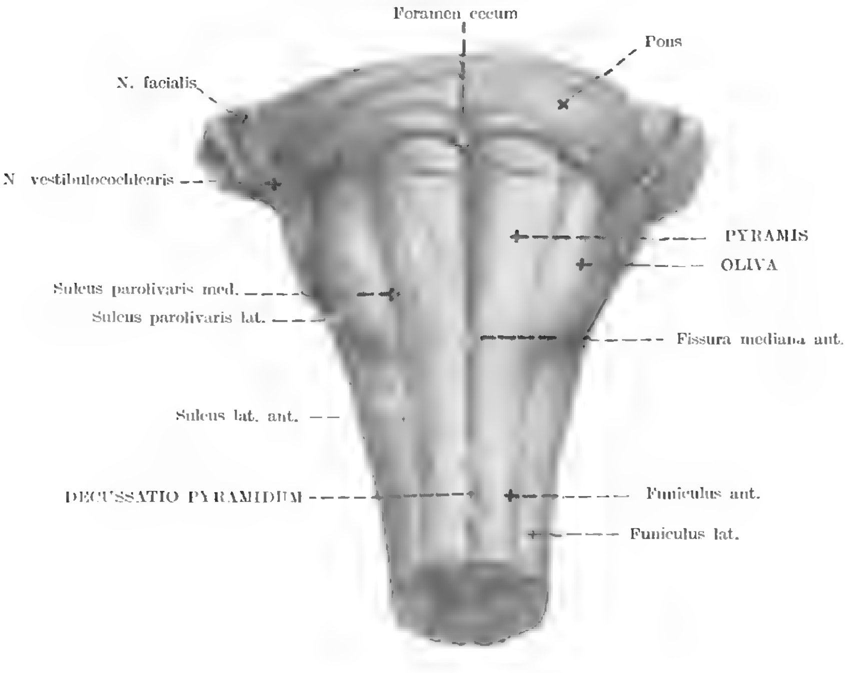
(vermis, sectio mediana)



1/I

Fig. 33. CEREBELLUM VII.
(nuclei cerebelli, sectio horizontalis, aspectus superior)



2/I

Fig. 34. MYELENCEPHALON
(medulla oblongata, aspectus anterior)

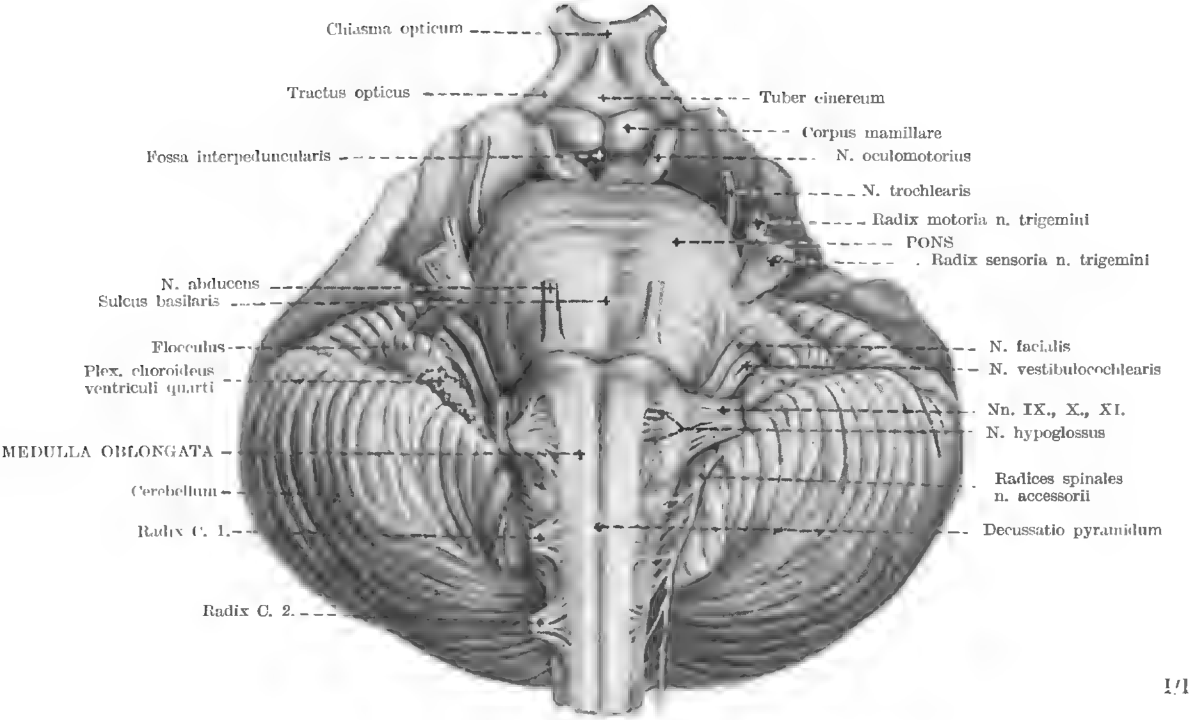


Fig. 35. RHOMBENCEPHALON I.
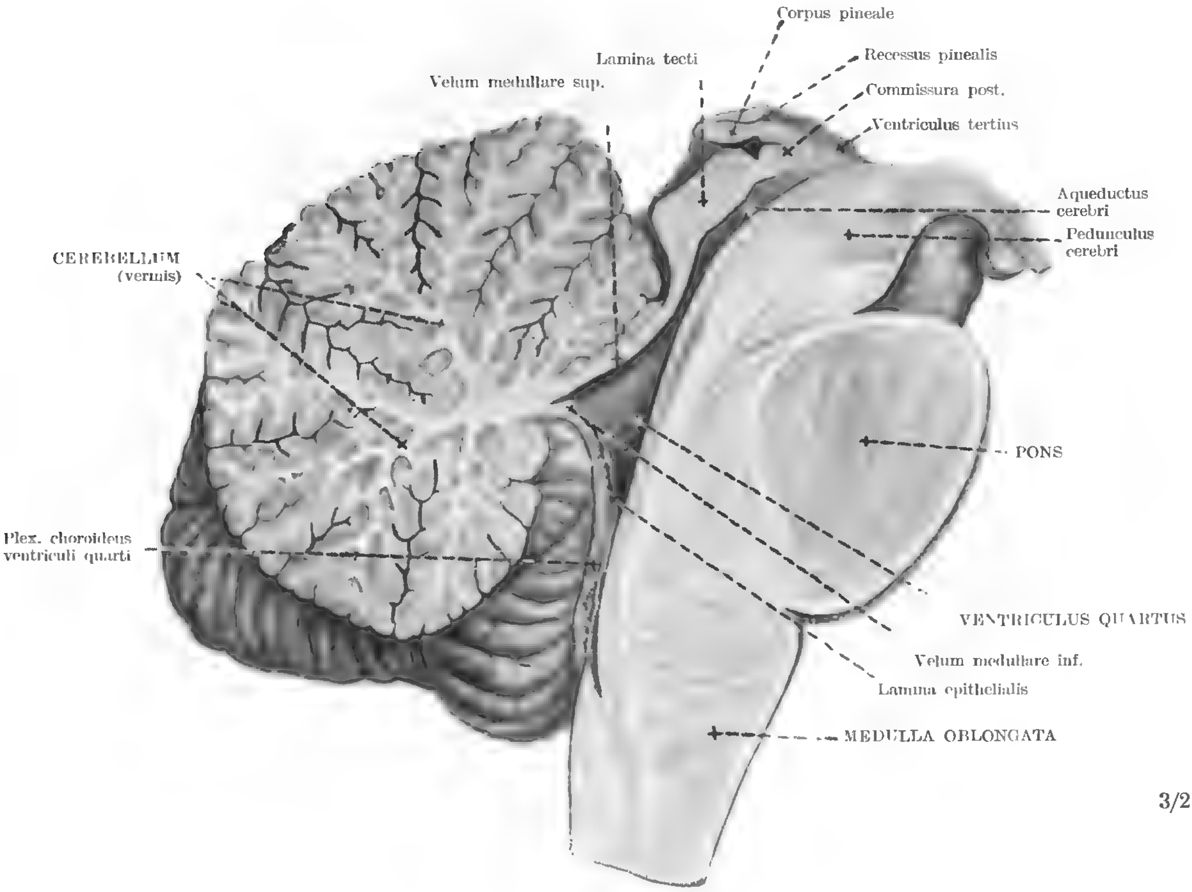
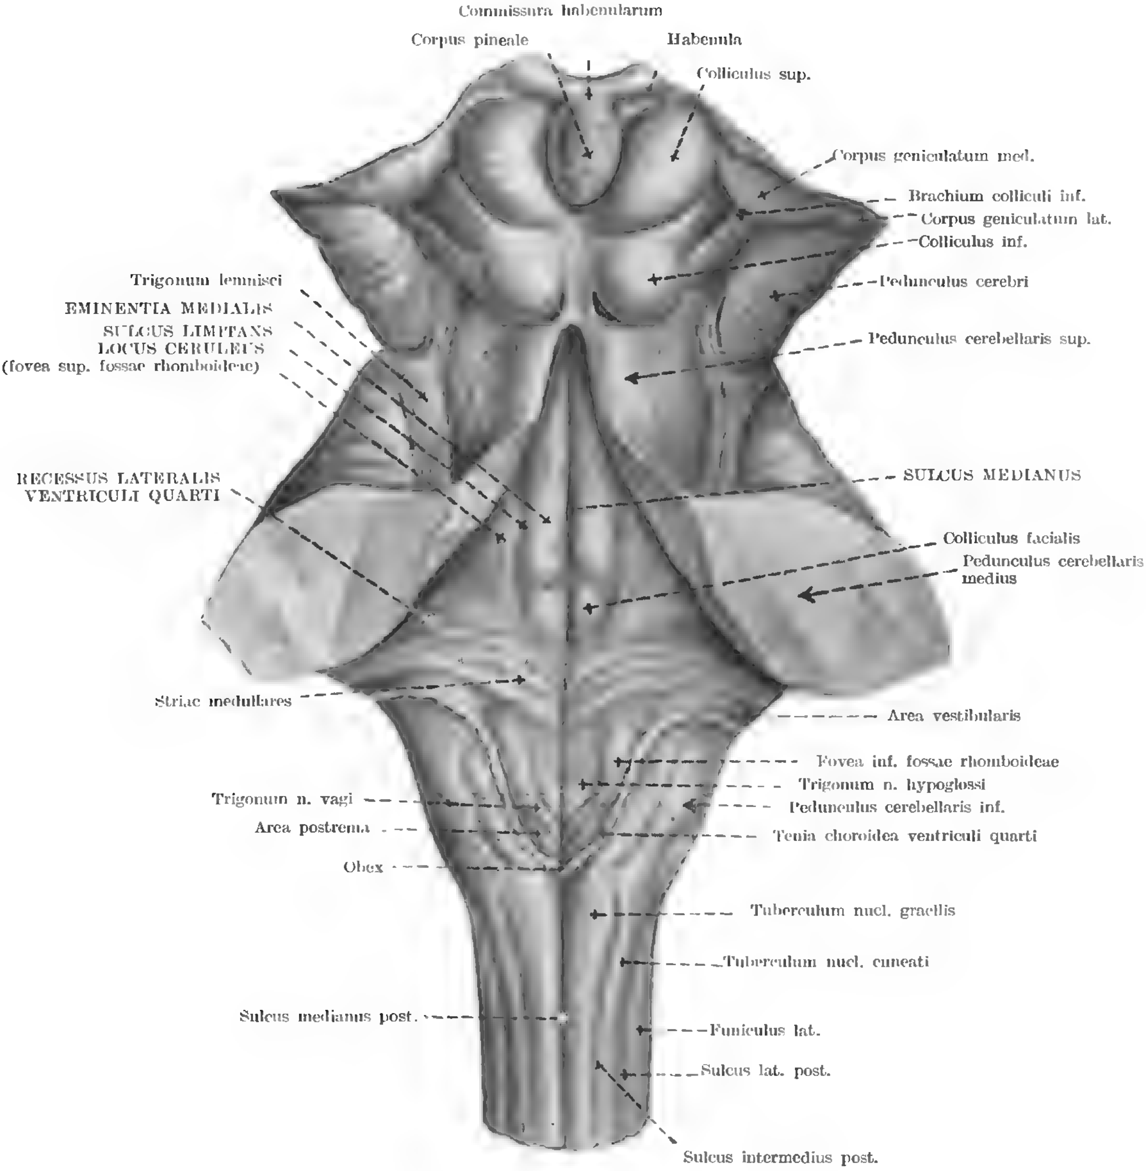
(cerebellum, pons et medulla oblongata, aspectus antero-inferior)



3/2

Fig. 36. RHOMBENCEPHALON II.
(mesencephalon, metencephalon et myelencephalon, sectio sagittalis mediana, aspectus dexter)



2,1

Fig. 37. RHOMBENCEPHALON III.
(ventriculus quartus, fossa rhomboidea, aspectus posterior)

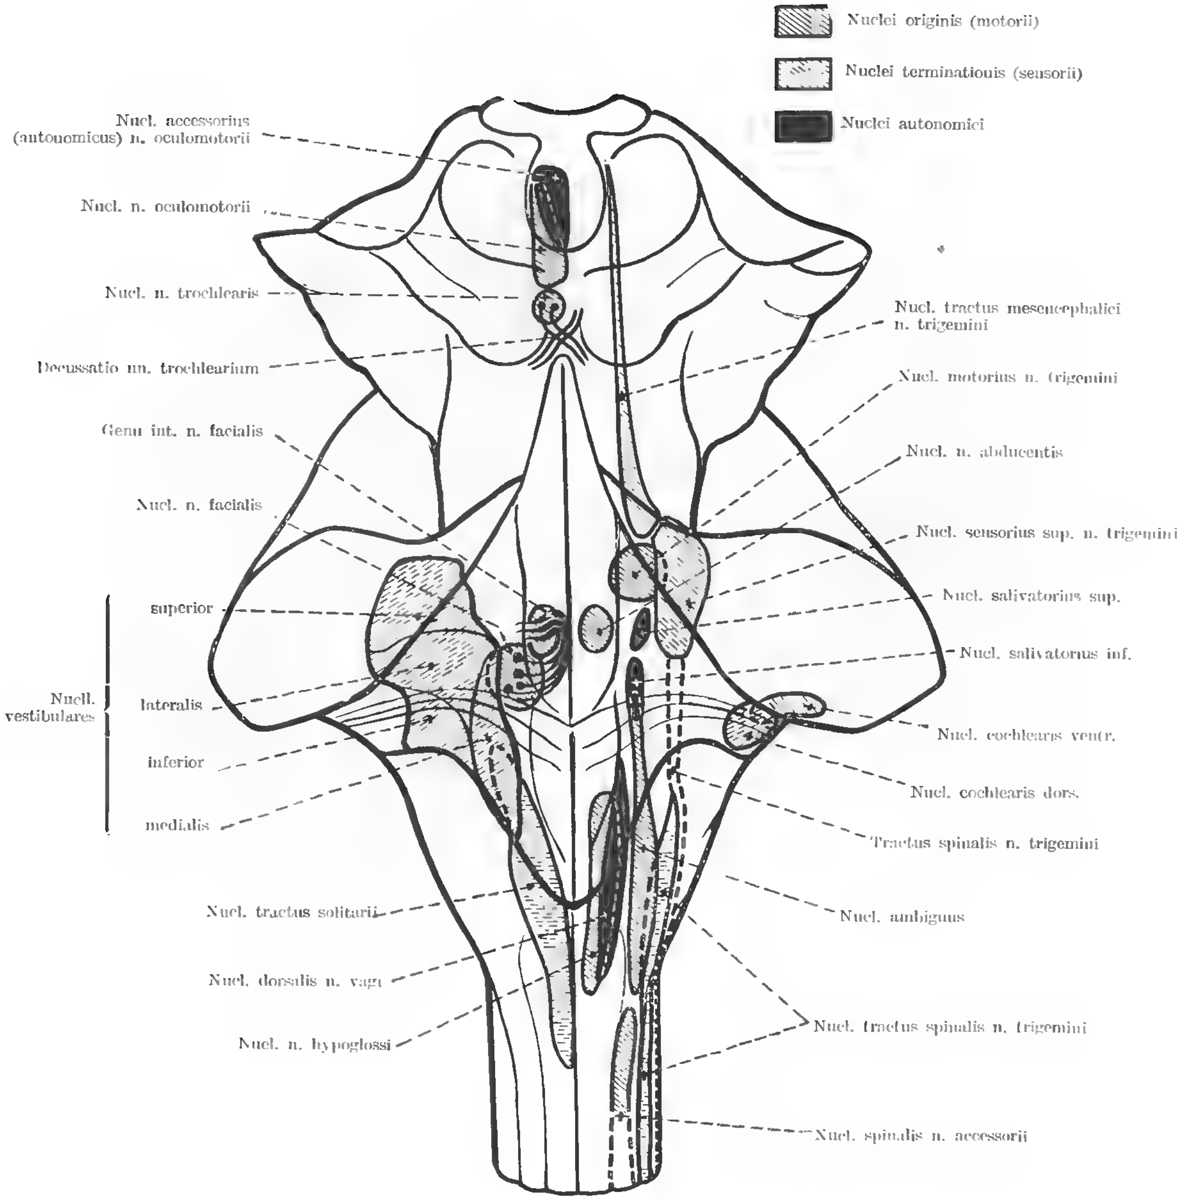


Fig. 38. RHOMBENCEPHALON IV.
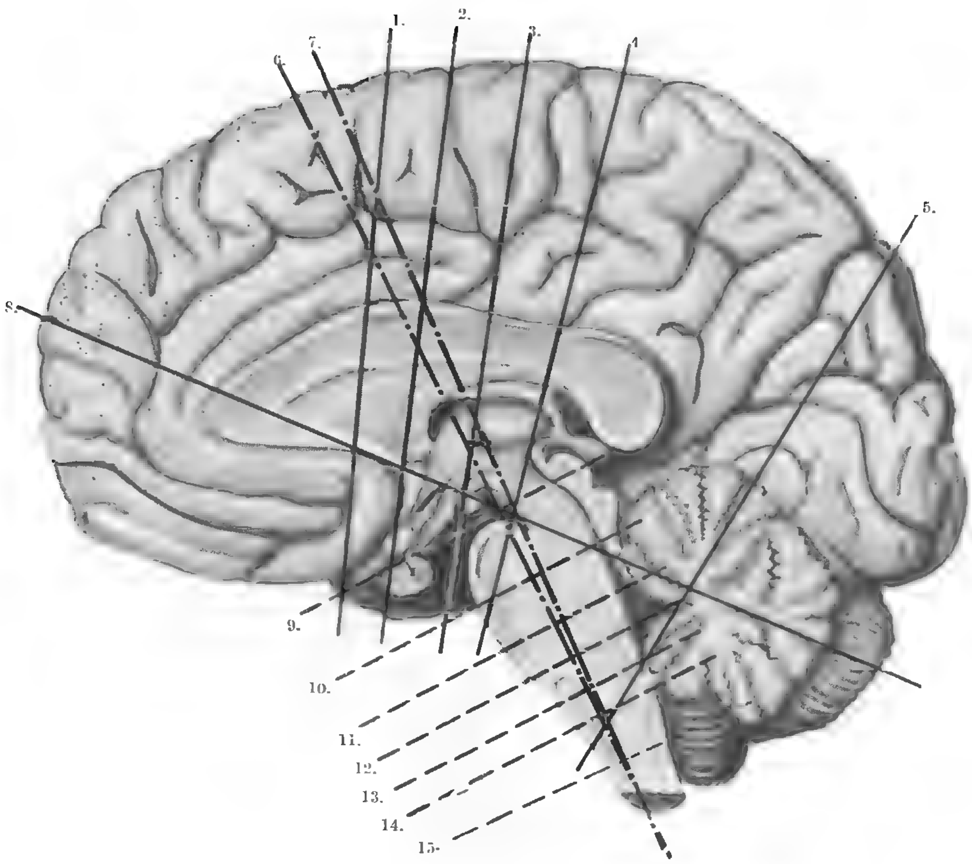
(nuclei nervorum cranialium)



1. Sectio frontalis cerebri I. = fig. 40.
2. Sectio frontalis cerebri II. = fig. 41.
3. Sectio frontalis cerebri III. = fig. 42.
4. Sectio frontalis cerebri IV. = fig. 43.
5. Sectio frontalis cerebri V. = fig. 44.
6. Sectio obliqua cerebri I. = fig. 45.
7. Sectio obliqua cerebri II. = fig. 46.
8. Sectio horizontalis cerebri = fig. 48.
9. Sectio transversa mesencephali = fig. 49.
10. Sectio transversa isthmi rhombencephali — fig. 50.
11. Sectio transversa pontis I. = fig. 51.
12. Sectio transversa pontis II. = fig. 52.
13. Sectio transversa medullae oblongatae I. = fig. 53.
14. Sectio transversa medullae oblongatae II. = fig. 54.
15. Sectio transversa medullae oblongatae III. = fig. 55.

Fig. 39. SECTIONES CEREBRI
(sectio sagittalis mediana, aspectus sin., l. dext., ad orientationem figurarum 40—55.)

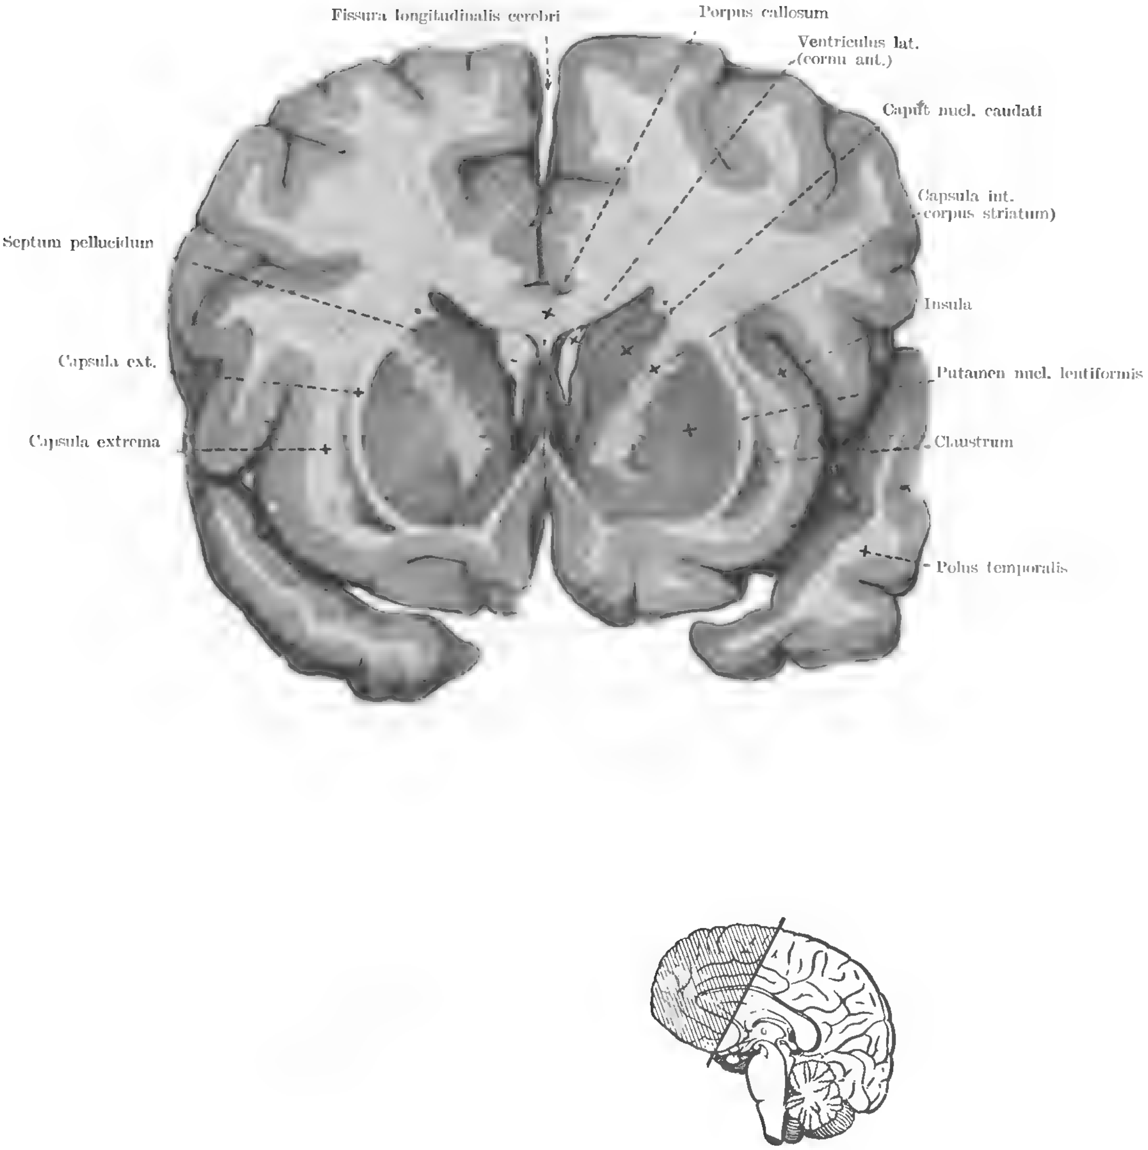


Fig. 40. SECTIO FRONTALIS CEREBRI I.
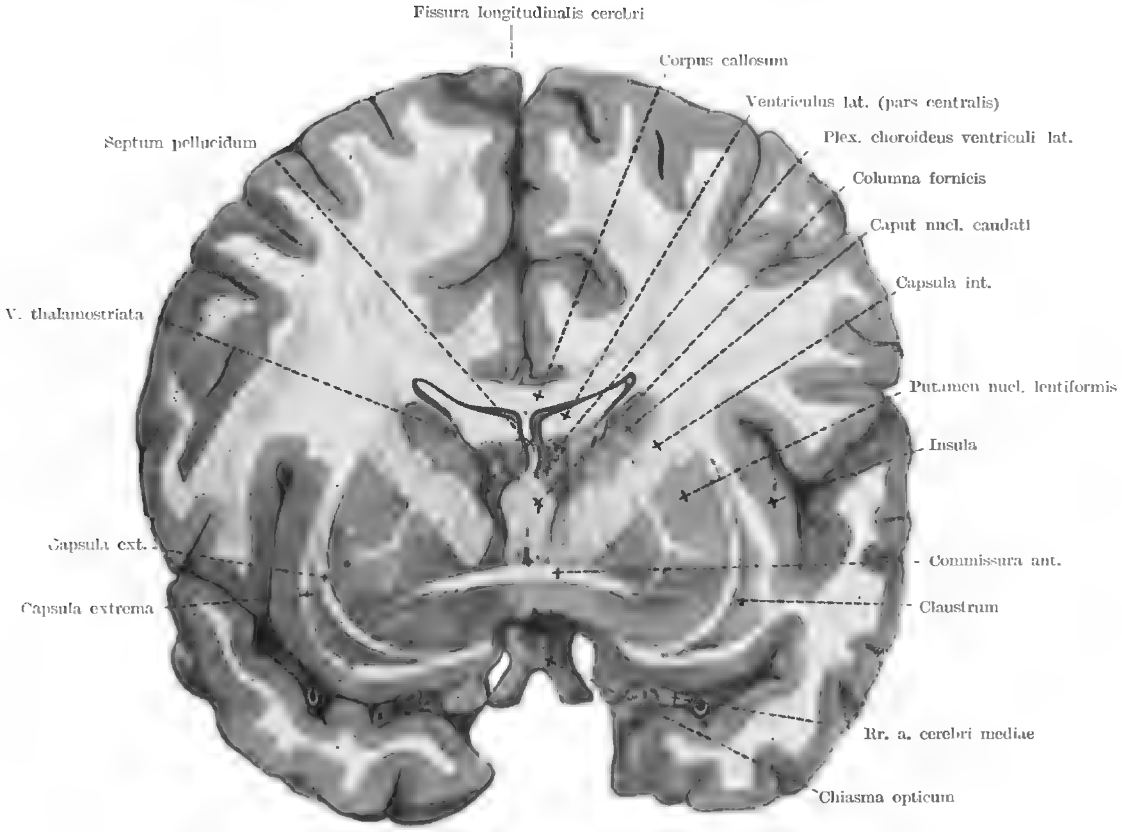
(aspectus anterior)



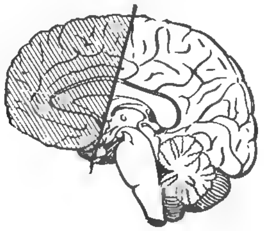


Fig. 41. SECTIO FRONTALIS CEREBRI II.
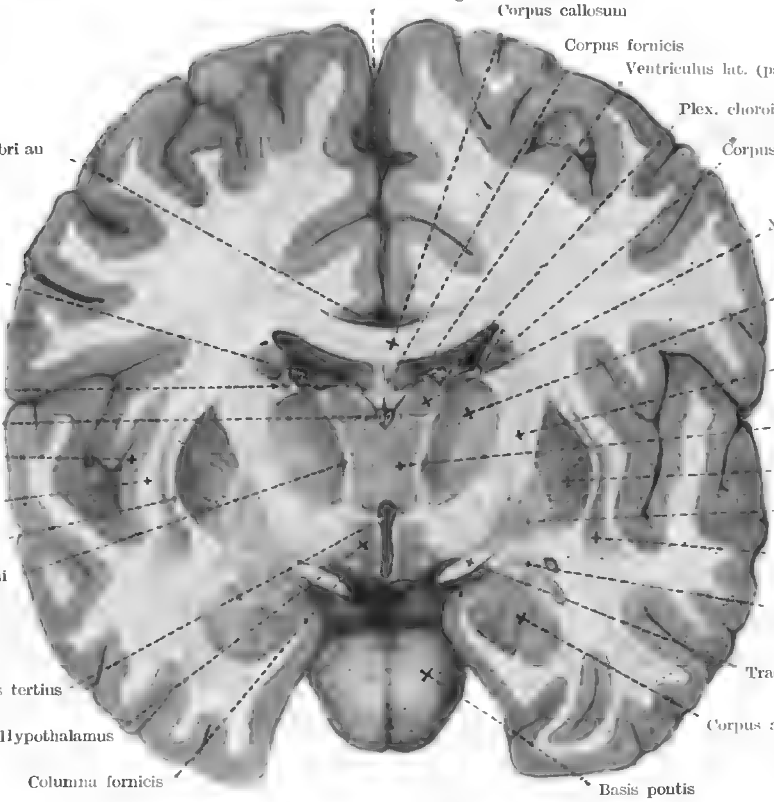
(aspectus anterior)



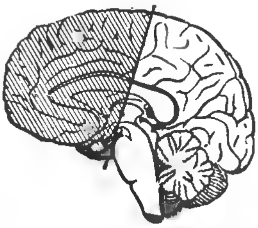


Fig. 42. SECTIO FRONTALIS CEREBRI III.
(aspectus anterior)

INDEX

Атлас составлен на основе *систематической анатомии.* Указатель составлен в алфавитном порядке и содержит все встречающиеся в атласе выражения латинской номенклатуры, чтобы тем самым облегчить сравнение и дифференцирование терминов, а также общую ориентацию в анатомии.

Первый и второй тома содержат самостоятельные указатели. В третьем томе помещен общий указатель ко всему атласу.

В книге обычно используются термины Парижской анатомической номенклатуры (1955) с учетом видоизменений, принятых в Нью-Йорке в 1960 году.

Термины Парижской анатомической номенклатуры напечатаны в указателе шрифтом антиква.

Курсивом, на втором месте, напечатаны старые термины Базельской (1895) и Йенской (1935) анатомических номенклатур, которые не переняты в Парижскую. Наиболее важные из них приведены в указателе самостоятельно, в алфавитном порядке, там же дается указание на новый термин.

При Нью-Йоркских изменениях, касающихся только орфографии определенных терминов (например, choroidea, gluteus, thyroidea вместо chorioidea, glutaeus, thyreoidea), старые формы приводятся в указателе только в тех случаях, когда это важно для ориентации (например, esophagus вместо oesophagus).

В отдельных случаях, если соответствующих выражений нет в Парижской анатомической номенклатуре, оказалось необходимым сохранить выражения старых номенклатур. Эти термины также приведены курсивом.

*-ой обозначены те выражения, которые ни в одной из номенклатур не фигурируют официально, но употребление которых целесообразно и распространено в практике.

Приведенные в указателе цифры всегда указывают на *номер рисунка.* Римские цифры, напечатанные курсивом, обозначают номер тома.

Напечатанные курсивом номера указывают на то, что данное выражение является важнейшим на рисунке или фигурирует в подписи к рисунку.

д-р Б. Зольнаи

ABBREVIATIONES — СОКРАЩЕНИЯ

a.	arteria	n. VI.	n. abducens
ant.	anterior, -ius	n. VII.	n. facialis
C.	cervicalis, -e	n. VIII.	n. vestibulocochlearis
circ.	circularis, -e	n. IX.	n. glossopharyngeus
comm.	communis, -e	n. X.	n. vagus
dext.	dexter, -ra, -rum	n. XI.	n. accessorius
dist.	distalis, -e	n. XII.	n. hypoglossus
dors.	dorsalis, -e	nucl.	nucleus
ext.	externus, -a, -um	obl.	obliquus, -a, -um
front.	frontalis, -e	post.	posterior, -ius
gl.	glandula	proc.	processus
inf.	inferior, -ius	prof.	profundus, -a, -um
int.	internus, -a, -um	prox.	proximalis, -e
L.	lumbalis, -e	r.	ramus
lat.	lateralis, -e	S.	sacralis, -e
lig.	ligamentum	sin.	sinister, -ra, -rum
lymph.	lymphaticus, -a, -um	spf.	superficialis, -e
m.	musculus	sup.	superior, -ius
med.	medialis, -e	symp.	sympathicus, -a, -um
n.	nervus	Th.	thoracicus, -a, -um
n. III.	n. oculomotorius	tr.	truncus
n. IV.	n. trochlearis	transv.	transversus, -a, -um
n. V.	n. trigeminus	v.	vena
n. V/1.	n. ophthalmicus	var.	varietas
n. V/2.	n. maxillaris	ventr.	ventralis, -e
n. V/3.	n. mandibularis		

Удвоение последней буквы в сокращениях обозначает множественное число (например, aa.: arteriae, dorss.: dorsales, -ia и т. д.). Склонение сокращенных выражений (напр., родительный падеж) не обозначено.

Выражения, не относящиеся к номенклатурам, приведенные на латинском языке:

ablatus	удаленный	origo	начало
apertus	вскрытый	paramedianus	парамедиальный
aspectus	вид	partim	отчасти
color	цвет	periphericus	периферический
corrosum	коррозионный	perpendicularis	перпендикулярный
cum	с (вместе)	preparatum	препарат
etiam	также	projectio	проекция
fecit	изготовлен	ramificatio	разветвление
fig. (figura)	рисунок	retrobulbaris	ретробульбарный
fixans	фиксированный	sectio	разрез
flavus	желтый	secundum	согласно
gr. (grecus)	по-гречески	seu	или
infimus	самый нижний	situs	положение
innervatio	иннервация	sive	или
insertio	вложенный	sonda	зонд
intracranialis	внутричерепной	structura	строение
l. (lateris)	сторона	topographia	топография
neuron	нейрон	vide	смотри
orientatio	ориентация	viridis	зеленый

REGISTER FIGURARUM

SYSTEMA NERVOSUM CENTRALE — ЦЕНТРАЛЬНАЯ НЕРВНАЯ СИСТЕМА

Fig. 1. Basis cerebri (arteriae baseos cerebri et nervi craniales). Основание мозга (артерии основания мозга и черепные нервы)

Fig. 2. Encephalon I. (aspectus lateralis dext.). Головной мозг I (вид сбоку-справа)

Fig. 3. Sulci et gyri cerebri I. (facies supero-lateralis hemispherii, aspectus dext.). Борозды и извилины мозга I (верхне-боковая поверхность полушария, вид справа)

Fig. 4. Encephalon II. (sectio sagittalis, aspectus medialis, l. dext.). Головной мозг II (сагиттальный разрез, вид с медиальной стороны, правая сторона)

Fig. 5. Sulci et gyri cerebri II. (facies medialis hemispherii, sectio sagittalis encephali). Борозды и извилины мозга II (медиальная поверхность полушария, сагиттальный разрез)

Fig. 6. Encephalon III. (aspectus superior). Головной мозг III (вид сверху)

Fig. 7. Sulci et gyri cerebri III. (facies supero-laterales hemispheriorum, aspectus superior). Борозды и извилины мозга III (верхне-боковая поверхность полушарий, вид сверху)

Fig. 8. Facies inferior cerebri (aspectus inferior). Нижняя поверхность мозга (вид снизу)

Fig. 9. Sulci et gyri cerebri IV. (facies inferiores hemispheriorum). Борозды и извилины мозга IV (нижние поверхности полушарий)

Fig. 10. Facies medialis et inferior hemispherii (telencephalon et diencephalon, aspectus infero-medialis hemispherii dextri). Медиальная и нижняя поверхности полушария (конечный мозг и межуточный мозг, вид на правое полушарие снизу и с медиальной стороны)

Fig. 11. Insula (opercula frontoparietale et temporale ablata). Островок (покрывающие островок части мозга удалены)

Fig. 12. Areae corticis cerebri I. (areae cytoarchitectonicae secundum Brodmann, facies supero-lateralis cerebri, hemispherium sin.). Поля коры головного мозга I (цитоархитектонические поля по Бродманну, верхне-боковая поверхность головного мозга, левое полушарие)

Fig. 13. Areae corticis cerebri II. (areae cytoarchitectonicae secundum Brodmann, facies medialis et inferior cerebri, hemispherium dext.). Поля коры головного мозга II (цитоархитектонические поля по Бродманну, медиальная и нижняя поверхности головного мозга, правое полушарие)

Fig. 14. Corpus callosum (sectio horizontalis cerebri, aspectus superior). Мозолистое тело (горизонтальный разрез головного мозга, вид сверху)

Fig. 15. Ventriculi laterales I. (aspectus superior). Боковые желудочки I (вид сверху)

Fig. 16. Ventriculi laterales II. (aspectus superior, corpus callosum ablatum). Боковые желудочки II (вид сверху, мозолистое тело удалено)

Fig. 17. Ventriculus lateralis III. (aspectus lateralis, l. dext.). Боковой желудочек III (вид сбоку, правая сторона)

Fig. 18. Cornu inferius ventriculi lateralis I. (aspectus superior, l. sin.). Нижний рог бокового желудочка I (вид сверху, левая сторона)

Fig. 19. Cornu inferius ventriculi lateralis II. (apex cornus inferioris). Нижний рог бокового желудочка II (верхушка нижнего рога)

Fig. 20. Rhinencephalon (aspectus infero-medialis, l. dext.). Обонятельный мозг (вид снизу с медиальной стороны, правая сторона)

Fig. 21. Diencephalon (ventriculus tertius, thalamus et hypothalamus, sectio sagittalis, l. dext.). Межуточный мозг (третий желудочек, зрительный бугор и гипоталамус, сагиттальный разрез, правая сторона)

Fig. 22. Centrum baseos encephali (diencephalon, hypothalamus, aspectus inferior). Центр основания головного мозга (межуточный мозг, гипоталамус, вид снизу)

Fig. 23. Ventriculus tertius et thalamus (thalamencephalon, epithalamus, aspectus superior). Третий желудочек и зрительный бугор (таламэнцефалон, эпиталамус, вид сверху)

Fig. 24. Tela choroidea ventriculi tertii (venae internae cerebri, aspectus superior). Мягкая мозговая оболочка третьего желудочка (внутренние вены головного мозга, вид сверху)

Fig. 25. Truncus cerebri I. (aspectus posterior). Ствол мозга I (вид сзади)

Fig. 26. Truncus cerebri II. (aspectus infero-lateralis dexter). Ствол мозга II (правосторонний нижне-боковой вид)

Fig. 27. Cerebellum I. (vermis et facies superiores hemispheriorum, aspectus superior). Мозжечок I (червячок и верхние поверхности полушарий, вид сверху)

Fig. 28. Cerebellum II. (vermis et lobuli, aspectus superior). Мозжечок II (червячок и дольки, вид сверху)

Fig. 29. Cerebellum III. (vermis et hemispherii, aspectus anterior). Мозжечок III (червячок и полушария, вид спереди)

Fig. 30. Cerebellum IV. (vermis et lobuli, aspectus anterior). Мозжечок IV (червячок и дольки, вид спереди)

Fig. 31. Cerebellum V. (aspectus dexter). Мозжечок V (вид справа)

Fig. 32. Cerebellum VI. (vermis, sectio mediana). Мозжечок VI (червячок, срединный разрез)

Fig. 33. Cerebellum VII. (nuclei cerebelli, sectio horizontalis, aspectus superior). Мозжечок VII (ядра мозжечка, горизонтальный разрез, вид сверху)

Fig. 34. Myelencephalon (medulla oblongata, aspectus anterior). Продолговатый мозг (продолговатый мозг, вид спереди)

Fig. 35. Rhombencephalon I. (cerebellum, pons et medulla oblongata, aspectus antero-inferior). Ромбический мозг I (мозжечок, мост и продолговатый мозг, вид спереди-снизу)

Fig. 36. Rhombencephalon II. (mesencephalon, metencephalon et myelencephalon, sectio sagittalis mediana, aspectus dexter). Ромбический мозг II (средний мозг, задний мозг и продолговатый мозг, срединный сагиттальный разрез, вид справа)

Fig. 37. Rhombencephalon III. (ventriculus quartus, fossa rhomboidea, aspectus posterior). Ромбический мозг III (четвертый желудочек мозга, ромбовидная ямка, вид сзади)

Fig. 38. Rhombencephalon IV. (nuclei nervorum cranialium). Ромбический мозг IV (ядра черепномозговых нервов)

Fig. 39. Sectiones cerebri (sectio sagittalis mediana, aspectus sin., l. dext., ad orientationem figurarum 40—55.). Разрезы головного мозга (срединный сагиттальный разрез, вид слева, правая сторона, для ориентировки на рисунках 40–55)

Fig. 40. Sectio frontalis cerebri I. (aspectus anterior). Фронтальный разрез головного мозга I (вид спереди)

Fig. 41. Sectio frontalis cerebri II. (aspectus anterior). Фронтальный разрез головного мозга II (вид спереди)

Fig. 42. Sectio frontalis cerebri III. (aspectus anterior). Фронтальный разрез головного мозга III (вид спереди)

Fig. 43. Sectio frontalis cerebri IV. (aspectus anterior). Фронтальный разрез головного мозга IV (вид спереди)

Fig. 44. Sectio frontalis cerebri V. (aspectus posterior). Фронтальный разрез головного мозга V (вид сзади)

Fig. 45. Sectio obliqua cerebri I. (sectio fronto-obliqua, aspectus posterior). Косой разрез головного мозга I (фронтально-косой разрез, вид сзади)

Fig. 46. Sectio obliqua cerebri II. (sectio fronto-obliqua, aspectus anterior). Косой разрез головного мозга II (фронтально-косой разрез, вид спереди)

Fig. 47. Sectio obliqua cerebri III. (sectiones horizonto-obliquae secundum Flechsig, aspectus superior). Косой разрез головного мозга III (горизонтально-косые разрезы по Флексигу, вид сверху)

Fig. 48. Sectio horizontalis cerebri (aspectus superior). Горизонтальный разрез головного мозга (вид сверху)

Fig. 49. Sectio transversa mesencephali (l. sin. figurae: myeloarchitectura; l. dext. figurae: cytoarchitectura). Поперечный разрез среднего мозга (на левой стороне рисунка: миелоархитектура; на правой стороне рисунка: цитоархитектура)

Fig. 50. Sectio transversa isthmi rhombencephali (myeloarchitectura). Поперечный разрез перешейка ромбического мозга (миелоархитектура)

Fig. 51. Sectio transversa pontis I. (pars superior, myeloarchitectura). Поперечный разрез моста I (верхняя часть, миелоархитектура)

Fig. 52. Sectio transversa pontis II. (pars inferior, myeloarchitectura). Поперечный разрез моста II (нижняя часть, миелоархитектура)

Fig. 53. Sectio transversa medullae oblongatae I. (pars superior, myeloarchitectura). Поперечный разрез продолговатого мозга I (верхняя часть, миелоархитектура)

Fig. 54. Sectio transversa medullae oblongatae II. (pars media, cyto- et myeloarchitecturae). Поперечный разрез продолговатого мозга II (средняя часть, цито- и миелоархитектура)

Fig. 55. Sectio transversa medullae oblongatae III. (pars infima, cyto- et myeloarchitecturae). Поперечный разрез продолговатого мозга III (самая нижняя часть, цито- и миелоархитектура)

Fig. 56. Tractus encephali I. (tractus nervosi commissurales, corpus callosum, preparatum fecit S. B. Dzugaeva). Пути головного мозга I (коммиссуральные нервные пути, мозолистое тело, препарировала С. Б. Дзугаева)

Fig. 57. Tractus encephali II. (corpus callosum, hemispherium sin.). Пути головного мозга II (мозолистое тело, левое полушарие)

Fig. 58. Tractus encephali III. (corona radiata et capsula interna). Пути головного мозга III (лучистый венец и внутренняя капсула чечевицеобразного ядра)

Fig. 59. Tractus encephali IV. (corona radiata, l. dext.). Пути головного мозга IV (лучистый венец, правая сторона)

Fig. 60. Tractus encephali V. (tractus nervosi associationis). Пути головного мозга V (ассоциационные нервные пути)

Fig. 61. Tractus encephali VI. (radiatio thalami, fasciculus mamillothalamicus et fasciculus retroflexus, l. dext.). Пути головного мозга VI (лучистость зрительного бугра, мамиллоталамический пучок, правая сторона)

Fig. 62. Tractus et nuclei encephali I. (nucleus caudatus et nucleus lentiformis, aspectus lateralis, l. sin.). Пути и ядра головного мозга I (хвостатое и чечевицеобразное ядра, вид сбоку, левая сторона)

Fig. 63. Tractus encephali VII. (radiatio optica). Пути головного мозга VII (зрительная лучистость)

Fig. 64. Tractus et nuclei encephali II. (aspectus infero-lateralis, l. sin.). Пути и ядра головного мозга II (нижне-боковой вид, левая сторона)

Fig. 65. Tractus encephali VIII. (radiatio optica et commissura anterior, aspectus infero-lateralis dexter). Пути головного мозга VIII (зрительная лучистость и передняя коммиссура, нижне-боковой вид, правая сторона)

Fig. 66. Tractus et nuclei encephali III. (aspectus supero-lateralis, l. sin.). Пути и ядра головного мозга III (верхне-боковой вид, левая сторона)

Fig. 67. Topographia craniocerebralis I. (secundum Krönlein). Топография мозгового черепа I (по Крёнлейну)

Fig. 68. Topographia craniocerebralis II. (ventriculi cerebri, aspectus lateralis). Топография мозгового черепа II (желудочки мозга, вид сбоку)

Fig. 69. Topographia craniocerebralis III. (ventriculi cerebri, aspectus antero-posterior). Топография мозгового черепа III (желудочки мозга, передне-задний вид)

Fig. 70. Topographia craniocerebralis IV. (ventriculi cerebri, aspectus postero-anterior). Топография мозгового черепа IV (желудочки мозга, задне-передний вид)

Fig. 71. Arteriae encephali I. (arteriae laterales cerebri). Артерии головного мозга I (боковые артерии головного мозга)

Fig. 72. Arteriae encephali II. (arteriae mediales cerebri). Артерии головного мозга II (медиальные артерии головного мозга)

Fig. 73. Arteriae encephali III. (arteriae baseos cerebri, circulus arteriosus). Артерии головного мозга III (артерии основания мозга, артериальное кольцо)
Fig. 74. Sinus durae matris et venae cerebri I. (aspectus superior). Венозные синусы твердой мозговой оболочки и вены головного мозга I (вид сверху)
Fig. 75. Dura mater encephali et sinus durae matris (aspectus posterior). Твердая мозговая оболочка и ее венозные синусы (вид сзади)
Fig. 76. Sinus durae matris et venae cerebri II. (aspectus posterior). Венозные синусы твердой мозговой оболочки и вены головного мозга II (вид сзади)
Fig. 77. Sinus durae matris et venae capitis. Венозные синусы твердой мозговой оболочки и вены головы
Fig. 78. Sinus venosi durae matris baseos cranii. Венозные синусы твердой мозговой оболочки на основании черепа
Fig. 79. Sinus venosi durae matris, meninges, arteriae et venae corticales encephali (sinus sagittalis superior, sectio transversalis). Венозные синусы твердой мозговой оболочки, мозговые оболочки, артерии и вены коры мозга (верхний сагиттальный синус, поперечный разрез)
Fig. 80. Meninges encephali et cisternae subarachnoideales (sectio sagittalis paramediana). Оболочки головного мозга и цистерны мягкой мозговой оболочки (парамедиальный сагиттальный разрез)
Fig. 81. Plexus choroidei (tela choroidea, lamina epithelialis et teniae, sectio frontalis cerebri). Сосудистые сплетения (фронтальный разрез головного мозга)
Fig. 82. Medulla spinalis (aspectus anterior). Спинной мозг (вид спереди)
Fig. 83. Medulla spinalis et nervi spinales (aspectus dexter). Спинной мозг и спинномозговые нервы (вид справа)
Fig. 84. Medulla spinalis in situ (aspectus sinister). Спинной мозг in situ (вид слева)
Fig. 85. Pars cervicalis medullae spinalis (canalis vertebralis et dura mater spinalis apertae, aspectus posterior). Шейный отрезок спинного мозга (позвоночный канал и твердая спинномозговая оболочка вскрыты, вид сзади)
Fig. 86. Pars lumbalis medullae spinalis et cauda equina (canalis vertebralis et dura mater spinalis apertae, aspectus posterior). Поясничный отрезок спинного мозга и конский хвост (позвоночный канал и твердая спинномозговая оболочка вскрыты, вид сзади)
Fig. 87. Cauda equina et saccus durae matris (dura mater spinalis aperta, aspectus posterior). Конский хвост и мешок твердой мозговой оболочки (твердая мозговая оболочка вскрыта, вид сзади)
Fig. 88. Sectiones transversae medullae spinalis (segmenta medullae spinalis). Поперечные разрезы спинного мозга (сегменты спинного мозга)
Fig. 89. Structura medullae spinalis et nervi spinalis. Структура спнного мозга и спинномозговых нервов
Fig. 90. Structura medullae spinalis et nervorum peripherialium. Структура спинного мозга и периферических нервов
Fig. 91. Arteriae medullae spinalis. Артерии спинного мозга
Fig. 92. Plexus venosi vertebrales I. (sectio transversa partis cervicalis columnae vertebralis). Венозные сплетения позвоночника I (поперечный разрез шейного отрезка позвоночника)
Fig. 93. Plexus venosi vertebrales II. (sectio transversa partis lumbalis columnae vertebralis). Венозные сплетения позвоночника II (поперечный разрез поясничного отрезка позвоночника)
Fig. 94. Plexus venosi vertebrales et capitis (preparatum corrosum fecerunt G. Szikla et B. Zolnai). Венозные сплетения позвоночника и головы (коррозионный препарат сделан Г. Сикла и Б. Зольнаи)

SYSTEMA NERVOSUM PERIPHERICUM — ПЕРИФЕРИЧЕСКАЯ НЕРВНАЯ СИСТЕМА

ANGIOLOGIA — СОСУДИСТАЯ СИСТЕМА

Fig. 95. Arteriae baseos cerebri et nervi craniales (basis cerebri). Артерии основания мозга и черепномозговые нервы (основания мозга)
Fig. 96. Nervi craniales (sinus intracranialis). Черепномозговые нервы (положение внутри черепа)
Fig. 97. Nervi craniales et dura mater (aspectus postero-supero-lateralis, sinus cavernosus dexter apertus). Черепномозговые нервы и твердая мозговая оболочка (задне-верхнебоковой вид, правая пещеристая пазуха вскрыта)
Fig. 98. Orbita I. (stratum superficiale, aspectus superior). Глазница I (поверхностный слой, вид сверху)
Fig. 99. Orbita II. (stratum medium, aspectus superior). Глазница II (средний слой, вид сверху)
Fig. 100. Orbita III. (stratum profundum, aspectus superior). Глазница III (глубокий слой, вид сверху)
Fig. 101. Orbita IV. (aspectus lateralis). Глазница IV (вид сбоку)
Fig. 102. Nervus trigeminus I. (ramificatio profunda). Тройничный нерв I (разветвление нерва в глубине)
Fig. 103. Nervus trigeminus II. et nervus facialis I. (ganglia autonomica capitis, aspectus medialis, l. sin.). Тройничный нерв II и лицевой нерв I (вегетативные узлы головы, вид с медиальной стороны, левая сторона)
Fig. 104. Nervus trigeminus III. (nervi septi nasi, aspectus sinister). Тройничный нерв III (нервы носовой перегородки, вид слева)
Fig. 105. Nervus trigeminus IV. (nervus maxillaris, ganglion pterygopalatinum, nervi parietis lateralis cavi nasi et nervi palatini, aspectus medialis, l. sin.). Тройничный нерв IV (верхнечелюстной нерв, крыловидно-нёбный узел, нервы боковой стенки носовой полости и нёба, вид с медиальной стороны, левая сторона)

Fig. 106. Nervus facialis II. (plexus tympanicus et nervi petrosi, aspectus lateralis, l. dext.). Лицевой нерв II (тимпаническое сплетение и каменистые нервы, вид сбоку, правая сторона)
Fig. 107. Nervus facialis III. (nervi superficiales faciei). Лицевой нерв III (поверхностные нервы лица)
Fig. 108. Nervus vagus, nervus accessorius et pars cervicalis trunci sympathici I. (aspectus posterior). Блуждающий нерв, добавочный нерв и шейный отрезок симпатического ствола I (вид сзади)
Fig. 109. Nervus vagus, nervus accessorius et pars cervicalis trunci sympathici II. Plexus pharyngeus. Блуждающий нерв, добавочный нерв и шейный отрезок симпатического ствола II. Глоточное сплетение
Fig. 110. Arteriae superficiales capitis. Поверхностные артерии головы
Fig. 111. Venae superficiales capitis. Поверхностные вены головы
Fig. 112. Nervi superficiales faciei (rami communicantes inter nervos facialem, trigeminum et cervicales). Поверхностные нервы лица (соединительные ветви между лицевым, тройничным и шейными нервами)
Fig. 113. Arteriae, venae et nervi faciei I. (stratum superficiale). Артерии, вены и нервы лица I (поверхностный слой)
Fig. 114. Arteriae, venae et nervi faciei II. (stratum medium). Артерии, вены и нервы лица II (средний слой)
Fig. 115. Arteriae, venae et nervi faciei III. (stratum profundum). Артерии, вены и нервы лица III (глубокий слой)
Fig. 116. Arteriae, venae et nervi colli I. (stratum superficiale, platysma). Артерии, вены и нервы шеи I (поверхностный слой, платизма)
Fig. 117. Arteriae, venae et nervi colli II. (stratum superficiale, lamina superficialis fasciae cervicalis). Артерии, вены и нервы шеи II (поверхностный слой, поверхностный листок шейной фасции)
Fig. 118. Arteriae, venae et nervi colli III. (stratum medium, musculi superficiales). Артерии, вены и нервы шеи III (средний слой, поверхностные мышцы)
Fig. 119. Arteriae, venae et nervi colli IV. (stratum medium, vena jugularis interna). Артерии, вены и нервы шеи IV (средний слой, внутренняя яремная вена)
Fig. 120. Arteriae, venae et nervi colli V. (stratum profundum, arteriae carotides). Артерии, вены и нервы шеи V (глубокий слой, сонные артерии)
Fig. 121. Arteriae, venae et nervi colli VI. (stratum profundum, arteria subclavia). Артерии, вены и нервы шеи VI (глубокий слой, подключичная артерия)
Fig. 122. Arteriae, venae et nervi colli VII. (stratum profundum, plexus cervicalis et brachialis). Артерии, вены и нервы шеи VII (глубокий слой, шейное и плечевое сплетения)
Fig. 123. Arteriae, venae et nervi colli VIII. (stratum profundum, aspectus anterior). Артерии, вены и нервы шеи VIII (глубокий слой, вид спереди)
Fig. 124. Plexus cervicalis et brachialis (partes cervicales canalis vertebralis et medullae spinalis, aspectus posterior). Шейное и плечевое сплетения (шейный отрезок позвоночного канала и спинного мозга, вид сзади)
Fig. 125. Plexus brachialis I. (structura plexus). Плечевое сплетение I (структура сплетения)
Fig. 126. Plexus brachialis II. (topographia plexus, regiones colli lateralis et axillaris). Плечевое сплетение II (топография сплетения, боковая шейная и подмышечная области)
Fig. 127. Nervus radialis (musculi extensores brachii et antebrachii). Лучевой нерв (мышцы-разгибатели плеча и предплечья)
Fig. 128. Nervus axillaris (musculus deltoideus). Подмышечный нерв (дельтовидная мышца)
Fig. 129. Nervus musculocutaneus (musculi flexores brachii). Мышечнокожный нерв (мышцы-сгибатели плеча)
Fig. 130. Nervus medianus (musculi flexores antebrachii et palmares). Срединный нерв (мышцы-сгибатели предплечья и мышцы ладони)
Fig. 131. Nervus ulnaris (musculi flexores antebrachii et palmares). Локтевой нерв (мышцы-сгибатели предплечья и мышцы ладони)
Fig. 132. Nervi cutanei membri superioris I. (innervatio peripherica, aspectus anterior). Кожные нервы верхней конечности I (периферическая иннервация, вид спереди)
Fig. 133. Nervi cutanei membri superioris II. (innervatio peripherica, aspectus posterior). Кожные нервы верхней конечности II (периферическая иннервация, вид сзади)
Fig. 134. Arteriae et nervi posteriores membri superioris I. (regiones deltoidea et scapularis, l. sin.). Тыльные артерии и нервы верхней конечности I (дельтовидная и лопаточная области, левая сторона)
Fig. 135. Arteriae et nervi posteriores membri superioris II. (regiones brachii, cubiti et antebrachii posteriores, l. dext.). Тыльные артерии и нервы верхней конечности II (задние области плеча, локти и предплечья, правая сторона)
Fig. 136. Arteriae et nervi anteriores brachii I. (regio brachii anterior, stratum superficiale). Передние артерии и нервы плеча I (передняя область плеча, поверхностный слой)
Fig. 137. Arteriae et nervi anteriores brachii II. (regio brachii anterior, stratum profundum). Передние артерии и нервы плеча II (передняя область плеча, глубокий слой)
Fig. 138. Arteriae et nervi anteriores antebrachii I. (fossa cubitalis et regio antebrachii anterior, stratum superficiale). Передние артерии и нервы предплечья I (локтевая впадина и передняя область предплечья, поверхностный слой)
Fig. 139. Arteriae et nervi anteriores antebrachii II. (regiones cubiti et antebrachii anteriores, stratum profundum). Передние артерии и нервы предплечья II (передние области локтя и предплечья, глубокий слой)
Fig. 140. Arteriae et nervi palmae manus I. (stratum superficiale). Артерии и нервы ладони I (поверхностный слой)
Fig. 141. Arteriae et nervi palmae manus II. (stratum profundum). Артерии и нервы ладони II (глубокий слой)
Fig. 142. Arteriae, venae et nervi dorsi manus I. (aspectus dorsalis). Артерии, вены и нервы тыла кисти I (вид сзади)
Fig. 143. Arteriae, venae et nervi dorsi manus II. (aspectus radialis). Артерии, вены и нервы тыла кисти II (вид с лучевой стороны)
Fig. 144. Arteriae manus (arcus palmares). Артерии кисти (ладонные дуги)
Fig. 145. Venae manus (rete venosum palmare). Вены кисти (венозная сеть ладони)

Fig. 146. Venae superficiales et nervi cutanei brachii. Поверхностные вены и кожные нервы плеча

Fig. 147. Venae superficiales et nervi cutanei antebrachii. Поверхностные вены и кожные нервы предплечья

Fig. 148. Arteriae et nervi parietis anterioris trunci (arteriae thoracica interna et epigastricae, aspectus posterior). Артерии и нервы передней стенки туловища (внутренняя грудная и надчревные артерии, вид сзади)

Fig. 149. Venae parietis posterioris trunci (vena azygos). Вены задней стенки туловища (непарная вена)

Fig. 150. Arteriae, venae et nervi intercostales (structura parietis thoracis). Межреберные артерии, вены и нервы (структура стенки грудной клетки)

Fig. 151. Arteriae, venae et nervi thoracis I. (mediastinum anterius). Артерии, вены и нервы грудной клетки I (переднее средостение)

Fig. 152. Arteriae, venae et nervi thoracis II. (cavum pleurae dextrum et mediastinum). Артерии, вены и нервы грудной клетки II (правосторонняя грудная полость и средостение)

Fig. 153. Arteriae, venae et nervi thoracis III. (cavum pleurae et mediastinum). Артерии, вены и нервы грудной клетки III (грудная полость и средостение)

Fig. 154. Arteriae et venae viscerales abdominis I. (truncus celiacus). Висцеральные артерии и вены брюшной полости I (чревный ствол)

Fig. 155. Arteriae et venae viscerales abdominis II. (truncus celiacus, arteria mesenterica superior, venae portae et mesenterica superior). Висцеральные артерии и вены брюшной полости II (чревный ствол, верхняя брыжеечная артерия, воротная и верхняя брыжеечная вены)

Fig. 156. Arteriae et venae viscerales abdominis III. (arteria et vena mesentericae superiores). Висцеральные артерии и вены брюшной полости III (верхние брыжеечные артерия и вена)

Fig. 157. Arteriae et venae viscerales abdominis IV. (vasa intestini crassi). Висцеральные артерии и вены брюшной полости IV (сосуды толстой кишки)

Fig. 158. Arteriae, venae et nervi retroperitoneales (spatium retroperitoneale, nervi lumbales). Забрюшинные артерии, вены и нервы (забрюшинное пространство, поясничные нервы)

Fig. 159. Arteriae, venae et nervi parietales pelvis (sectio sagittalis mediana). Париетальные артерии, вены и нервы таза (срединный сагиттальный разрез)

Fig. 160. Arteriae, venae et nervi viscerales pelvis masculinae (sectio sagittalis paramediana sin.). Висцеральные артерии, вены и нервы мужского таза (парамедиальный сагиттальный левосторонний разрез)

Fig. 161. Arteriae, venae et nervi viscerales pelvis femininae (sectio sagittalis paramediana sin.). Висцеральные артерии, вены и нервы женского таза (парамедиальный сагиттальный левосторонний разрез)

Fig. 162. Arteriae et nervi regionis perinealis (regio perinealis masculina). Артерии и нервы области промежности (область мужской промежности)

Fig. 163. Rami dorsales nervorum spinalium. Задние ветви спинномозговых нервов

Fig. 164. Plexus lumbosacralis (structura plexus, cum partibus abdominali et pelvina systematis autonomici). Пояснично-крестцовое сплетение (структура сплетения с брюшной и тазовой частями вегетативной нервной системы)

Fig. 165. Nervus obturatorius (musculi adductores femoris). Запирательный нерв (приводящие мышцы бедра)

Fig. 166. Nervus femoralis et nervi peronei (musculi extensores femoris et cruris). Бедренный нерв и малоберцовые нервы (мышцы-разгибатели бедра и голени)

Fig. 167. Nervus ischiadicus et nervus tibialis (musculi flexores femoris et cruris, musculi plantares). Седалищный нерв и большеберцовый нерв (мышцы-разгибатели бедра и голени, мышцы подошвы)

Fig. 168. Nervi cutanei membri inferioris I. (innervatio periferica, aspectus posterior). Кожные нервы нижней конечности I (периферическая иннервация, вид сзади)

Fig. 169. Nervi cutanei membri inferioris II. (innervatio periferica, aspectus anterior). Кожные нервы нижней конечности II (периферическая иннервация, вид спереди)

Fig. 170. Arteriae, venae et nervi subinguinales et femoris anteriores I. (trigonum femorale, regiones subinguinalis et femoris anterior, stratum superficiale). Подпаховые и передние бедренные артерии, вены и нервы I (бедренный треугольник, подпаховая и передняя бедренная области, поверхностный слой)

Fig. 171. Arteriae, venae et nervi subinguinales et femoris anteriores II. (trigonum femorale, regiones subinguinalis et femoris anterior, stratum profundum). Подпаховые и передние бедренные артерии, вены и нервы II (бедренный треугольник, подпаховая и передняя бедренная области, глубокий слой)

Fig. 172. Nervi regionis gluteae (musculi glutei). Нервы ягодичной области (ягодичные мышцы)

Fig. 173. Arteriae, venae et nervi femoris posteriores I. (regiones glutea et femoris posterior). Задние бедренные артерии, вены и нервы I (ягодичная и задняя бедренная области)

Fig. 174. Arteriae, venae et nervi femoris posteriores II. (regiones femoris et genus posteriores et fossa poplitea). Задние бедренные артерии, вены и нервы II (задние бедренная и коленная области и подколенная ямка)

Fig. 175. Venae superficiales et nervi cutanei femoris. Поверхностные вены и кожные нервы бедра

Fig. 176. Arteriae, venae et nervi cruris anteriores (regiones genus et cruris anteriores). Передние артерии, вены и нервы голени (передние области колена и голени)

Fig. 177. Arteriae, venae et nervi cruris posteriores (fossa poplitea et regiones genus et cruris posteriores). Задние артерии, вены и нервы голени (подколенная ямка и задние области колена и голени)

Fig. 178. Venae superficiales et nervi cutanei cruris et pedis I. Поверхностные вены и кожные нервы голени и стопы I

Fig. 179. Venae superficiales et nervi cutanei cruris II. Поверхностные вены и кожные нервы голени II

Fig. 180. Arteriae, venae et nervi dorsi pedis. Артерии, вены и нервы тыла стопы

Fig. 181. Arteriae, venae et nervi plantae pedis. Артерии, вены и нервы подошвы

Fig. 182. Arteriae pedis (aspectus dorsalis). Артерии стопы (вид сзади)

Fig. 183. Venae superficiales et nervi cutanei pedis II. Поверхностные вены и кожные нервы стопы II
Fig. 184. Innervatio segmentalis cutis. Сегментарная иннервация кожи
Fig. 185. Innervatio peripherica cutis (areae nervorum cutaneorum capitis, colli et trunci). Периферическая иннервация кожи (зоны кожных нервов головы, шеи и туловища)

SYSTEMA NERVOSUM AUTONOMICUM — ВЕГЕТАТИВНАЯ НЕРВНАЯ СИСТЕМА

Fig. 186. Pars cephalica et pars cervicalis systematis nervosi autonomici. Головная и шейная части вегетативной нервной системы
Fig. 187. Pars thoracica systematis nervosi autonomici (aspectus lateralis dexter). Грудная часть вегетативной нервной системы (вид сбоку и справа)
Fig. 188. Pars abdominalis systematis nervosi autonomici. Брюшная часть вегетативной нервной системы
Fig. 189. Pars pelvina systematis nervosi autonomici I. (plexus hypogastricus inferior seu pelvinus, sectio sagittalis paramediana pelvis masculinae). Тазовая часть вегетативной нервной системы I (нижнее подчревное или тазовое сплетение, парамедиальный сагиттальный разрез мужского таза)
Fig. 190. Pars pelvina systematis nervosi autonomici II. (sectio sagittalis paramediana pelvis femininae). Тазовая часть вегетативной нервной сисметы (парамедиальный сагиттальный разрез женского таза)
Fig. 191. Ganglia celiaca (plexus celiacus, aorticus abdominalis, renalis et suprarenalis). Чревные узлы (чревное, брюшно-аортальное, почечное и надпочечное сплетения)

SYSTEMA LYMPHATICUM — ЛИМФАТИЧЕСКАЯ СИСТЕМА

Fig. 192. Systema lymphaticum (trunci lymphatici). Лимфатическая система (лимфатические стволы)
Fig. 193. Structura systematis lymphatici I. (intestinum tenue, preparatum injectum, sectio transversa, fecit A. V. Borisov). Структура лимфатической системы I (тонкая кишка, поперечный разрез, инъецированный препарат сделан А. В. Борисовым)
Fig. 194. Structura systematis lymphatici II. (hepar, preparatum injectum, aspectus e superficie, fecit M. A. Dolgova). Структура лимфатической системы II (печень, вид с поверхностной стороны, инъецированный препарат сделан М. А. Долговой)
Fig. 195. Structura systematis lymphatici III. (intestinum tenue, angioarchitectura, sectio longitudinalis, secundum A. V. Borisov). Структура лимфатической системы III (тонкая кишка, ангиоархитектура, продольный разрез, по А. В. Борисову)
Fig. 196. Vasa lymphatica et nodi lymphatici capitis, cervicis et thoracis superficiales. Поверхностные лимфатические сосуды и узлы головы, шеи и грудной клетки
Fig. 197. Vasa lymphatica et nodi lymphatici cervicis. Лимфатические сосуды и узлы шеи
Fig. 198. Vasa lymphatica et nodi lymphatici faciei et cervicales profundi. Глубокие лимфатические сосуды и узлы лица и шеи
Fig. 199. Vasa lymphatica et nodi lymphatici regionum mammalis, axillaris, infraclavicularis et colli lateralis. Лимфатические сосуды и узлы области грудной железы, подмышечной, подключичной и боковой шейной областей
Fig. 200. Vasa lymphatica et nodi lymphatici membri superioris. Лимфатические сосуды и узлы верхней конечности
Fig. 201. Vasa lymphatica et nodi lymphatici mediastinales I. Лимфатические сосуды у излы средостения I
Fig. 202. Vasa lymphatica et nodi lymphatici mediastinales II. Лимфатические сосуды и узлы средостения II
Fig. 203. Vasa lymphatica et nodi lymphatici mediatinales III. (fecerunt Mascagni et Fontana, anno 1788.). Лимфатические сосуды и узлы средостения III (по Масканьи и Фонтана, 1788 г.)
Fig. 204. Vasa lymphatica et nodi lymphatici mediastinales IV. (preparatum fecerunt Mascagni et Fontana, anno 1788.). Лимфатические сосуды и узлы средостения IV (препарат сделан Масканьи и Фонтана, 1788 г.)
Fig. 205. Vasa lymphatica et nodi lymphatici retroperitoneales I. (fecerunt Mascagni et Fontana, anno 1788.). Забрюшинные лимфатические сосуды и узлы I (по Масканьи и Фонтана, 1788 г.)
Fig. 206. Vasa lymphatica et nodi lymphatici retroperitoneales II. Забрюшинные лимфатические сосуды и узлы II
Fig. 207. Vasa lymphatica et nodi lymphatici ventriculi, hepatis et duodeni. Лимфатические сосуды и узлы желудка, печени и двенадцатиперстной кишки
Fig. 208. Vasa lymphatica et nodi lymphatici mesenterici. Лимфатические сосуды и узлы брыжейки
Fig. 209. Vasa lymphatica et nodi lymphatici organorum genitalium masculinorum. Лимфатические сосуды и узлы мужских половых органов
Fig. 210. Vasa lymphatica et nodi lymphatici organorum genitalium femininorum. Лимфатические сосуды и узлы женских половых органов
Fig. 211. Vasa lymphatica et nodi lymphatici membri inferioris I. (aspectus anterior). Лимфатические сосуды и узлы нижней конечности I (вид спереди)
Fig. 212. Vasa lymphatica et nodi lymphatici membri inferioris II. (aspectus posterior). Лимфатические сосуды и узлы нижней конечности II (вид сзади)
Fig. 213. Nodi lymphatici et plexus autonomici celiaci. Лимфатические узлы и вегетативные сплетения брюшной полости
Fig. 214. Nodi lymphatici et plexus autonomici mesenterici. Лимфатические узлы и вегетативные сплетения брыжейки
Fig. 215. Nodi lymphatici et plexus autonomici retroperitoneales. Забрюшинные лимфатические узлы и вегетативные сплетения

ORGANA SENSUUM — ОРГАНЫ ЧУВСТВ

Fig. 216. Organum visus, oculus (sectio horizontalis bulbi oculi). Орган зрения, глаз (горизонтальный разрез глазного яблока)
Fig. 217. Bulbus oculi I. (tunica fibrosa bulbi). Глазное яблоко I (фиброзная оболочка глазного яблока)
Fig. 218. Bulbus oculi II. (tunica vasculosa bulbi). Глазное яблоко II (сосудистая оболочка глазного яблока)
Fig. 219. Bulbus oculi III. (structura bulbi). Глазное яблоко III (структура глазного яблока)
Fig. 220. Corpus ciliare et iris (structura partis anterioris bulbi). Ресничное тело и радужная оболочка (структура передней части глазного яблока)
Fig. 221. Arteriae et venae bulbi oculi (secundum F. Kiss et T. Orbán, sectio horizontalis). Артерии и вены глазного яблока (по Ф. Кишшу и Т. Орбану, горизонтальный разрез)
Fig. 222. Arteriae et venae retinae (fundus oculi, discus nervi optici et macula). Артерии и вены сетчатой оболочки (глазное дно, диск зрительного нерва и желтое пятно)
Fig. 223. Plexus vasculosus episcleralis (aspectus anterior partis anterioris bulbi). Эписклеральное сосудистое сплетение (вид спереди на переднюю часть глазного яблока)
Fig. 224. Corpus ciliare (aspectus posterior partis anterioris bulbi). Ресничное тело (вид сзади на переднюю часть глазного яблока)
Fig. 225. Corpus vitreum. Стекловидное тело
Fig. 226. Lens I. (aspectus lateralis). Хрусталик I (вид сбоку)
Fig. 227. Lens II. (aspectus postero-lateralis). Хрусталик II (вид сзади-сбоку)
Fig. 228. Retina (structura partis opticae retinae). Сетчатая оболочка (структура зрительной части сетчатой оболочки)
Fig. 229. Organa oculi accessoria (sectio frontalis retrobulbaris orbitae). Добавочные органы глаза (фронтальный разрез глазницы позади глазного яблока)
Fig. 230. Actio musculorum bulbi (bulbus dexter, aspectus anterior). Действие глазодвигательных мышц (правое глазное яблоко, вид спереди)
Fig. 231. Musculi bulbi I. (aspectus superior). Мышцы глаза I (вид сверху)
Fig. 232. Musculi bulbi II. (aspectus superior, l. dext.). Мышцы глаза II (вид сверху, правая сторона)
Fig. 233. Musculi bulbi III. (aspectus anterior, l. dext.). Мышцы глаза III (вид спереди, правая сторона)
Fig. 234. Musculi bulbi IV. (aspectus lateralis, l. dext.). Мышцы глаза IV (вид сбоку, правая сторона)
Fig. 235. Palpebrae I. (palpebrae et supercilium, l. dext.). Веки I (веки и брови, правая сторона)
Fig. 236. Palpebrae II. (structura palpebrarum, l. sin.). Веки II (структура век, левая сторона)
Fig. 237. Apparatus lacrimalis I. (facies posterior palpebrarum et glandula lacrimalis, l. dext.). Слезный аппарат I (задняя поверхность век и слезная железа, правая сторона)
Fig. 238. Apparatus lacrimalis II. (saccus lacrimalis, l. sin.). Слезный аппарат II (слезный мешок, левая сторона)
Fig. 239. Vaginae bulbi (sectio horizontalis orbitae). Оболочки глаза (горизонтальный разрез глаза)
Fig. 240. Auricula I. (musculi auriculae, aspectus lateralis). Ушная раковина I (мышцы ушной раковины, вид сбоку)
Fig. 241. Auricula II. (musculi auriculae, aspectus medialis). Ушная раковина II (мышцы ушной раковины, вид с медиальной стороны)
Fig. 242. Auricula III. (aspectus lateralis). Ушная раковина III (вид сбоку)
Fig. 243. Auricula IV. (cartilago auriculae et meatus acustici externi, aspectus anterior, l. sin.). Ушная раковина IV (хрящ ушной раковины и наружного слухового прохода, вид сверху, левая сторона)
Fig. 244. Auricula V. (cartilago auriculae, aspectus lateralis, l. sin.). Ушная раковина V (хрящ ушной раковины, вид сбоку, левая сторона)
Fig. 245. Auricula VI. (cartilago auriculae, aspectus medialis, l. sin.). Ушная раковина VI (хрящ ушной раковины, вид с медиальной стороны, левая сторона)
Fig. 246. Organum vestibulocochleare I. (schema organi vestibulocochlearis). Вестибуло-кохлеарный орган I (схема вестибуло-кохлеарного органа)
Fig. 247. Organum vestibulocochleare II. (situs partium organi projectus, aspectus superior). Вестибуло-кохлеарный орган II (проекция частей органа, вид сверху)
Fig. 248. Membrana tympani I. (aspectus lateralis, l. dext.). Барабанная перепонка I (вид сбоку, правая сторона)
Fig. 249. Membrana tympani II. (aspectus lateralis, in situ). Барабанная перепонка II (вид сбоку, in situ)
Fig. 250. Ossicula auditus (auris mediae dextrae). Слуховые косточки (правого среднего уха)
Fig. 251. Cavum tympani I. (paries membranaceus, l. dext.). Барабанная полость I (стенка лабиринта, правая сторона)
Fig. 252. Cavum tympani II. (paries labyrinthicus, l. dext.). Барабанная полость II (стенка лабиринта, правая сторона)
Fig. 253. Cavum tympani III. (ossicula auditus in situ, articulationes et ligamenta ossiculorum, aspectus medialis, l. sin.). Барабанная полость III (слуховые косточки, их суставы и связки, вид с медиальной стороны, левая сторона)
Fig. 254. Auris interna (sectio obliqua, aspectus supero-lateralis, l. sin.). Внутреннее ухо (косой разрез, вид сверху-сбоку, левая сторона)
Fig. 255. Labyrinthus osseus I. (preparatum corrosum, aspectus lateralis, l. sin.). Костный лабиринт I (коррозионный препарат, вид сбоку, левая сторона)
Fig. 256. Labyrinthus osseus II. (preparatum corrosum, aspectus superior, l. sin.). Костный лабиринт II (коррозионный препарат, вид сверху, левая сторона)
Fig. 257. Cochlea (sectio longitudinalis). Улитка (продольный разрез)
Fig. 258. Fundus meatus acustici interni (aspectus medialis, l. dext.). Дно внутреннего слухового хода (вид с медиальной стороны, правая сторона)
Fig. 259. Labyrinthus membranaceus I. (aspectus lateralis, l. dext.). Перепончатый лабиринт I (вид сбоку, правая сторона)
Fig. 260. Labyrinthus membranaceus II. (arteriae, venae et nervi auris internae, aspectus medialis, l. dext.). Перепончатый лабиринт II (артерии, вены и нервы внутрен-

него уха, вид с медиальной стороны, правая сторона)
Fig. 261. Ductus cochlearis (organum spirale Corti, structura organi, sectio transversa). Перепончатая улитка (Кортиев орган, структура органа, поперечный разрез)
Fig. 262. Crista ampullaris et macula utriculi (structura labyrinthi membranacei). Ампульный гребень и пятно мешочка (структура перепончатого лабиринта)
Fig. 263. Tuba auditiva (cartilago tubae auditivae). Слуховая труба (хрящ слуховой трубы)

INTEGUMENTUM COMMUNE — НАРУЖНЫЙ ПОКРОВ

Fig. 264. Unguis. Ноготь
Fig. 265. Directiones fissurarum corii. Направления борозд кориума
Fig. 266. Flumina pilorum. Расположение волосатости
Fig. 267. Cutis (structura cutis). Кожа (структура кожи)
Fig. 268. Pilum (structura radicis pili). Волосок (структура корня волоска)
